INDEPENDENT AUDITORS' REPORT

To the shareholders of Bulgarian Development Bank AD

Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of Bulgarian Development Bank AD ("the Bank") which comprise the consolidated statement of financial position as at 31 December 2012, the consolidated statements of comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards as adopted by the European Union, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Bank as at 31 December 2012, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the European Union.

Report on Other Legal and Regulatory Requirements

Annual report of the activities of the Bank prepared in accordance with the requirements of article 33 of the Accountancy Act

As required under the Accountancy Act, we report that the historical financial information disclosed in the consolidated annual report of the activities of the Bank, prepared by Management as required under article 33 of the Accountancy Act, is consistent, in all material aspects, with the consolidated financial information disclosed in the audited consolidated financial statements of the Bank as of and for the year ended 31 December 2012. Management is responsible for the preparation of the consolidated annual report of the activities of the Bank which was approved by the Management Board of the Bank on 4 April 2013.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 4 2012

1. REPORTING ENTITY AND OPERATING POLICIES

Bulgarian Development Bank Group (The Group) includes a parent company – Bulgarian Development Bank AD (BDB/The Bank) and its subsidiaries – National Guarantee Fund EAD (NGF/The Fund) and Microfinancing Institution JOBS EAD (MFI).

Bulgarian Development Bank AD (BDB/the Bank) was initially established on 11 March 1999 as a joint-stock company in Bulgaria under the name Encouragement Bank AD.

The Bulgarian Development Bank Act was adopted on 23 April 2008 (SG 43/29.04.2008) and the structure and the scope of Bank's activities including those for its envisaged subsidiaries were provided for therein. By virtue of that law all rights and obligations were applied to Encouragement Bank AD. Following a requirement of the law, a General Meeting of the Shareholders was held (26 June 2008) at which the name of the Bank was changed to Bulgarian Development Bank and its Articles of Incorporation were amended in line with the new legal requirements thereto.

The registered address of the Bank is 10, Stefan Karadzha, Sofia.

The parent company (The Bank) holds a general banking licence, issued by the Central Bank of Bulgaria (BNB) on 25 February 1999 with latest update of 16 November 2009 (due to the new Credit Institutions Act) and is allowed to conduct all banking transactions permitted by the Bulgarian legislation. Nevertheless, its Articles of Incorporation prohibit the following types of operations: accepting deposits from individuals (except for deposits from the employees), transactions with precious metals, issuance and management of bank cards, and provision of safe-deposit boxes. The Bank is also a licensed financial intermediary and a broker.

The parent company (The Bank) was established with a special purpose – to support the implementation of the economic policies of the State by financing the business development of small and medium-sized enterprises (SME) by maintaining their investment and export abilities and initiatives. With the adoption of the Bulgarian Development Bank Act in 2008 this objective was further incorporated in the principles and scope of the Bank's activities as set by law. These include:

- a) pre-export and export financing of SME;
- b) SME financing by investing in equity from its subsidiary the Capital Investment Fund (still not incorporated);
- c) financing SME operations and projects either through local intermediary banks or directly;
- d) guarantees issuance to SME to serve to local and foreign banks either directly or through its subsidiary the National Guarantee Fund (already established 2008);
- e) refinancing banks that grant loans to SME:
- f) financing SME investments abroad;
- g) EU financial resources management and support of activities under state, municipal and international projects directed towards the development of the economy of the country, including with regard to the utilisation of funds/subsidies for such projects:
- h) other activities relevant to this scope and state objectives.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER# 2012

1. REPORTING ENTITY AND OPERATING POLICIES (CONTINUED)

In early 2012 the parent company (BDB AD) has negotiated with commercial banks credit lines amounting BGN 100 millions, which will provide lending to bulgarian small and medium enterprises (SMEs). It is provided that the funds under the credit lines will be utilized by the partner-banks in two tranches, each amounting BGN 50 millions. Partner-banks will be lending the funds to small and medium enterprises (SMEs) at preferential terms. As at 31.12.2012 the utilized credit lines under this program amount to BGN 53,500 thousand.

In mid-September 2012, the parent company (BDB AD) signed a Memorandum for lending on preferential terms and providing consultations with the Association of Meat Processors in Bulgaria (AMB). The Memorandum is part of the broad initiative of Bulgarian Development Bank called "Partners" supporting the Bulgarian business. Under the same initiative, in November 2012, the Bank signed cooperation agreements – Memorandum for privileged partnership - with Bulgarian Industrial Capital Association (BICA), Bulgarian Association of Diary Processors, Food Industry Union, National vine and wine chamber, Federation of Bread Producers and Confectioner in Bulgaria and Bulgarian Soft Drinks Association.

In 2012, the commercial banking activity continued as well, including provision of loans to private companies (with priority on long-term and investment loans), special-purpose financing of banks (on-lending), transactions with treasury bonds, deposit and REPO transactions on interbank market, attraction of long-term credit lines and loans from international financial institutions, issuance of bank guarantees – directly to customers (companies) and in favor of lending banks (under the transferred to BDB project of the MLSP "Microcredit guarantee fund"), as well as other financial services in Bulgaria.

At 31.12.2012 the parent company (the Bank) has 124 employees (31.12.2011; 111).

The Bulgarian Development Bank Act (2008) envisages the establishment of two Bank subsidiaries - the Capital Investment Fund and the National Guarantee Fund.

The Capital Investment Fund is at project level and has not been established as at 31 December 2012.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBERH 2012

1. REPORTING ENTITY AND OPERATING POLICIES (CONTINUED)

The National Guarantee Fund (the NGF) was established on 12 August 2008 as a sole owner joint-stock company with 100% ownership of BDB. The registered office of the Fund is 10 Stefan Karadzha, Sofia. At 31.12.2012 the registered share capital is 800 000 registered nominal shares with par value of BGN 100 each (31.12.2011: 800 000 registered nominal shares with par value of BGN 100 each), the paid-in capital of which amounts to BGN 80.000.000, (31.12.2011: BGN 80.000.000).

The scope of NGF's principal activities is defined by the Bulgarian Development Bank Act. It includes:

- a) issue of guarantees to supplement the collaterals for SME loans.
- b) provide other guarantee products to serve as security for participation in tenders, for good performance;
- c) guarantees for advance payments and for payment of loans to exporters;
- d) other similar services.

The guarantees shall cover up to 50% of the respective liability to which they refer.

The National Guarantee Fund is managed by a Board of Directors (BD) with a mandate ending 12.08.2016. The members of the board are: Andrey Genev - chairman, Samuil Shiderov and Dimitar Mitev, Samuil Shiderov is managing director. The presentation is that any two members of the Board of Directors together.

At 31 December 2012 the NGF has 14 employees (31.12.2011; 12).

A micro-financing institution JOBS EAD (MFI) was registered on 14.01.2011 as sole proprietorship joint stock company, 100% owned by BDB. The registered address of the MFI is: 1 Angel Kanchev str., Sofia. As of 31.12.2012 the registered shareholder's equity comprises of 76 430 nominal shares with par value of BGN 100 each, and the paid-in capital as at 31.12.2012 is BGN 7,643,000.

MFI' scope of activities includes:

- a) micro-financing /with a maximum equivalent per product per customer EUR 25,000 /including, but not limited to:
 - provision of microloans:
 - purchase from third parties and leasing of industrial equipment, automobiles and other vehicles, as well as other assets (financial leasing);
 - sale and purchase of such items:
 - consultancy;

JOBS MFI is managed by a Board of Directors. The members of the board are: Martin Genchev, Ilia Karanikolov and Hristo Karamfilov. The first Board of Directors has been elected with 3 years mandate. The registration of the company is dated 14.01.2011. As of 31.12.2012 the entity has 11 employees (31.12.2011: 9).

As at 31.12.2012 Bulgarian Development Bank Group does not have branches.

The consolidated financial statements have been adopted by the Bank's Managing board on 04 April 2013.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER# 2012

2. BASIS OF PREPARATION

Statement of compliance

The consolidated annual financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS), as adopted by the European Union.

These financial statements have been prepared on a consolidated basis. The Bank prepares individual financial statements as per the Accounting taw. These consolidated annual financial statements shall be read together with individual consolidated financial statements.

Basis of preparation

These consolidated financial statements have been prepared on the historical cost basis except for the following items:

- Derivative financial instruments, measured at fair value;
- Trade instruments and other instruments, designated at fair value through profit and loss, as long as the fair value can be appropriately measured;
- Available-for-sale instruments, designated at fair value through profit and loss, as long as the fair value can be appropriately measured;
- Present value of pension liabilities.

Functional and presentation currency

These consolidated financial statements are presented in Bulgarian leva (BGN) rounded to the nearest thousand, which is the Bank's functional currency.

Use of estimates and judgments

The preparation of these financial statements requires management to make judgments, estimates and assumptions that affect the application the Bank's accounting policies and the reported amounts of assets. liabilities, income and expenses. Actual results may differ from these estimates and judgments.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 5.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER # 2012

3. SIGNIFICANT ACCOUNTING POLICIES

Basis of consolidation

These consolidated financial statements are prepared in accordance with IAS 27 "Separate and consolidated financial statements", as all entities, controlled through ownership of more than 50% of the voting rights by Bulgarian Development Bank AD, are consolidated through the full consolidation method, and all entities, significantly influenced through ownership of more than 20% of the voting rights by the Bank, are consolidated through the equity method.

Upon consolidation all receivables and liabilities, income and expenses, arising from operations between the Bank and its subsidiaries, are eliminated. Unrealized losses are eliminated in the same way as the unrealized profit in case there are no indications for impairment.

The consolidated entities and the consolidation method applied as of 31 December 2012 are as follows:

Entity	Capital ownership	Consolidation method
National Guarantee Fund	100%	Full consolidation
Microfinance Institution "JOBS"	100%	Full consolidation

Financial instruments

The Group initially recognizes loans, receivables and deposits on the date that they have initially originated. All other financial instruments (including assets and liabilities designated at fair value through profit or loss) are recognized initially on the trade date, which is the date that the Bank becomes a party to the contractual provisions of the instrument.

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or the Group transfers the rights to receive the contractual cash flows in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in such transferred financial asset that qualify for derecognition that is created or retained by the Group is recognized as a separate asset or liability.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group has a legal right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

The Group has the following non-derivative financial assets: financial assets designated at fair value through profit or loss, loans and advances, net investment in finance lease, held-to-maturity securities and assets available-for-sale.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER# 2012

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial assets designated at fair value through profit or loss

A financial asset is designated at fair value through profit or loss if it is held for trading or is designated as such upon initial recognition. Financial assets are designated at fair value trough profit or loss when the Group manages them, evaluates their performance and makes decisions for purchases and sales on a fair value basis, in accordance with a documented risk management strategy of the Group. Attributable transaction costs are recognized in profit or loss as incurred.

Financial assets designated at fair value through profit or loss are measured at fair value and any related changes, including income from dividends are recognized in profit or loss.

Financial assets classified as held for trading include short-term government debt securities that are actively managed by the Groupk in order to cover short-term liquidity needs.

Financial assets designated by the entity as at fair value through profit or loss comprise equity securities that would otherwise be classified as held for sale.

A derivative is a financial instrument:

- Whose value changes in response to the change in an underlying variable such as an interest rate, commodity or security price, or index;
- That requires no initial investment, or one that is smaller than would be required for a contract with similar response to changes in market factors;
- That is settled at a future date.

When entering a specific derivative transaction the Bank defines a position to be hedged and have met all the requirements of accounting standards, the corresponding derivative is recognized as such hedging. Derivatives that do not meet the criteria for hedge accounting are classified as held for trading.

Initially, the derivative financial instruments are measured at cost (including transaction costs) and subsequently, they are measured at fair value. Derivatives are accounted for as assets when their fair value is positive and as liabilities when it is negative.

Loans and advances

Loans and advances are financial assets with fixed or determinable payments, that are not quoted in an active market. Loans and advances are initially measured at fair value plus incremental direct transaction costs. Subsequently, loans and advances are measured at their amortised cost using the effective interest rate, less any allowance for impairment. (Note 3: Impairment of financial assets).

Loans and advances include cash and cash equivalents, trade and other receivables.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER# 2012

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Held-to-maturity financial assets

When the Group has the positive intent and ability to hold debt securities to maturity, then those securities are classified as financial assets held-to-maturity. Held-to-maturity financial assets are initioally recognized at fair value plus incremental direct transaction costs. After the initial recognition, held-to-maturity investments are carried at amortised cost using the effective interest method, less any impairment losses. (Note 3: Impairment of financial assets).

The held-to-maturity financial assets include insecured debt securities.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are designated as available-for-sale or are not classified as other category financial assets. Securities are initially recognised at fair value of the consideration given including acquisition costs associated with the investment. After initial recognition, they are measured at fair value and any fair value changes, other than impairment losses (Note 3: Impairment of financial assets) and foreign exchange gains or losses, are recognized in other comprehensive income and presented in the fair value reserve in equity. When an investment classified as available-for sale is derecognized, the accumulated gains or losses in other comprehensive income are reclassified to profit or loss.

The available-for-sale financial assets include securities and investments in other entity shares.

Net investment in finance lease

Leasing activity of the Group is associated with leasing of industrial equipment, vehicles, agricultural machinery etc. on financial lease terms. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incident to ownership.

All other leases are classified as operating leases.

Minimum lease payments

Minimum lease payments are the payments over the lease term that the lessee is or can be required to make. From the Group's prespective, the minimal lease payments also include the residual value of the asset, which is guaranteed by a third party unrelated to the Group, under the condition that this third party is financially capable discharging the obligation under the guarantee or the saleback agreement. The minimum lease payments comprise also the payment required to exercise an option to purchase the asset at the inception of the lease, that the option will be exercised is reasonably certain. Minimum lease payments exclude any contingent rent, cost for services and taxes to be paid by and reimbursed to the lessor.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER# 2012

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Net investment in finance leaes (continued)

Commencement of the lease contract and commencement of the lease term

There is a distinction between the commencement of the lease contract and commencement of the lease term:

- The commencement of the lease contract is the earlier of the two the date of the lease contract or the date of the commitment by the parties to the main provisions of the lease.
- The commencement of the lease term is the date from which the lessee may exercise his right to use the leased asset.

Initial recognition and subsequent measurment

Initially the Group recognizes a finance lease receivable which is equal to the net investment in the lease, that includes the present value of the minimum lease payments and any unguaranteed residual value for the Group. The discount rate to be used in calculating the present value of the minimum lease payments is the interest rate implicit in the lease. Any initial direct costs of the lessee are added to the amount recognised as an asset. During the lease term, the Group accrues financial income (interest income from finance lease) over the net investment of the lease. The received lease payments are treated as a reduction of net investment (repayment of principal) and the recognition of finance income is in such a way that ensures a constant rate of return on the net investment.

Subsequently, the net investment in finance leases are presented net, less any allowance for impairment. The determination of amount of the impairment loss over the finance leases is shown below. (Note 3: Impairment of financial assets).

Non-derivative financial liabilities

The Group initially recognizes debt securities and subordinated liabilities at the time of their origination. All other financial liabilities (including such recognised at fair value through profit or loss) are recognized initially on the trade date, which is the date that the Bank becomes a party to the contractual provisions of the instrument.

The financial liabilities are written off when its contractual obligations are discharged, cancelled or expire.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Bank has a legal right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

The Group classifies the non-derivative financial liabilities as "other financial liabilities". They are initially recognized at fair value with all of the directly attributable transaction costs included and are subsequently measured at amortised cost using the effective interest method.

Other financial liabilities include borrowings, bank overdrafts and trade and other liabilities.

Bank overdrafts that are repayable on demand and form an integral part of the cash management of the Group are included as a component of cash and cash equivalents for the purposes of the statement of cash flows.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER # 2012

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Impairment of financial instruments

At each reporting date the Group assesses whether there is objective evidence that financial assets not carried at fair value through profit or loss are impaired. A financial asset is impaired when there is any objective evidence that a loss event has occurred after the initial recognition of the asset, and that the loss event has an impact on the future cash flows of the asset that can be estimated reliably.

Objective evidence that financial assets are impaired can include significant financial difficulty of the borrower or issuer, default or delinquency by a borrower, restructuring of a loan or advance by the Group on terms that the Group would not otherwise consider, indications that a borrower or issuer will enter bankruptcy, adverse changes in the payment status of a borrower or issuer, economic conditions that lead to failures, the disappearance of an active market for a security.

Financial assets measured at amortised cost

The Group considers evidence for impairment of financial assets measured at amortised cost (loans and advances and held-to-maturity investment securities) at both a specific asset and collective level. All individually significant assets are assessed for specific impairment. Those found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Those assets that are not individually significant are collectively assessed for impairment by grouping together assets with similar risk characteristics.

In assessing collective impairment the Group uses statistical modeling of historical trends of the probability of default, the timing of recoveries and the amount of loss incurred, adjusted for management' judgments as to whether current economic and credit conditions are such that the actual losses are likely to be greater or less than suggested by historical trends.

Impairment losses on assets measured at amortised cost are calculated as the difference between the carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Impairment losses are recognized in profit or loss and reflected in an allowance account against loans and advances or held-to-maturity investment securities. When an event occurring after the impairment was recognized causes the amount of impairment losses to decrease, the decrease in impairment loss is reversed through profit or loss.

Available-for-sale financial assets

Impairment losses on available-for-sale financial assets are recognized by reclassification of the losses accumulated in the fair value reserve in equity to profit or loss. The cumulative loss that is reclassified from equity to profit or loss is the difference between the acquisition cost, net of any principal repayments and amortization, and the current fair value, less any impairment loss previously recognized in profit or loss. Changes in impairment provisions attributable to the application of the effective interest method are reflected as a component of interest income. If, in a subsequent period, the fair value of an impaired available-for sale debt security increases and the increase can be objectively related to an event occurring after the impairment loss was recognized, then the impairment loss is reversed, with the amount of the reversal recognized in profit or loss. However, any subsequent recovery in the fair value of an impaired available-for-sale equity security is recognized in other comprehensive income.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER #1 2012

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property, plant and equipment

Property, plant and equipment (tangible fixed assets) are measured at cost less accumulated depreciation and any accumulated impairment losses.

Initial measurement

Upon their initial acquisition, property, plant and equipment are valued at acquisition cost, which comprises the purchase price, including customs charges and any directly attributable costs of bringing the asset to working condition. The directly attributable costs include: costs for site preparation, initial delivery and handling costs, installation costs, professional fees for people involved in the project, non-refundable taxes etc.

Subsequent measurement

The approach chosen by the Group for subsequent measurement of property, plant and equipment, is the cost model under IAS 16, - acquisition cost less any accumulated depreciation and any accumulated impairment losses.

Any gain or loss on disposal of an item of property, plant and equipment (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognized within other income in profit or loss.

Depreciation

The Bank applies the straight-line depreciation method for property, plant and equipment. The useful life per group of assets is as follows:

- buildings 50 years.
- bank equipment and computers 5 years.
- motor vehicles 5 years.
- fixtures and fittings 6.7 years.

The useful life of the individual group of assets is determined by the management considering: their physical wear, the characteristic features of the equipment, the intentions for future use and the expected obsolescence. The useful life, set for any equipment, is reviewed at each year-end and is adjusted prospectively in case that any material deviations from future expectations concerning the terms of use are determined.

Subsequent costs

Repair and maintenance costs are recognised as current expenses at the moment they are incurred. Subsequent costs incurred in relation to property, plant and equipment having the nature of replacement of certain significant parts or improvements and restructuring, are capitalized in the carrying amount of the respective asset whereas its residual useful life is reviewed at the date of capitalization. At the same time, the non-depreciated part of the replaced components is derecognised from the carrying amount of the assets and is recognised in the current expenses for the period of the restructuring.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER # 2012

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Intangible assets

Intangible assets are measured at cost less accumulated amortisation and any accumulated impairment losses. They include software programs and license for their use.

The Group applies the straight-line depreciation method for the intangible assets with a determined useful life of 5 years.

The carrying amount of the intangible assets is subject to review for impairment when events or changes in the circumstances indicate that the carrying amount might exceed their recoverable amount. Impairment losses are included in the statement of comprehensive income.

Intangible assets are written-off from the statement of financial position when they are permanently disposed of and no future economic benefits are expected from their use or when they are sold. The gains or losses arising from the sale of separate assets from the group of the "intangible assets" are determined by comparing the proceeds from sale and the carrying amount of the asset at the date of sale.

Impairment of non-financial assets

The carrying amounts of the Groups's non-financial assets, other than investment property, inventory and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indications exist, then the asset's recoverable amount is estimated. For indefinite-lived intangible assets or not yet brought into use assets, the recoverable amount is estimated annually. An impairment loss is recognized if the carrying amount of an asset or cash-generating unit (CGU) exceeds its recoverable amount.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using the pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. For impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

Impairment losses are recognized in profit or loss. Impairment losses recognized in respect of CGUs are allocated to reduce the carrying amount of the assets in the CGU on a pro rata basis.

An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of amortization or depreciation, if no impairment loss had been recognized.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER # 2012

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Interest income and expense

Interest income and expenses are recognised in the statement of comprehensive income on accrual basis for all interest-bearing instruments using the effective yield method based on the actual price of acquisition or the applicable floating rate. Interest income and expenses include the depreciation of any discount or premium or other differences between the initial carrying amount of an interest-bearing instrument and its amount at maturity calculated on an effective interest rate basis.

Interest income includes coupons earned on available-for-sale debt securities, interest on deposits with other banks, interest on loans and advances to customers and leases to clients, and fees and commissions on loans and advances to customers, which are an integral part of the effective yield of the financial instrument.

Interest expense is recognised on accrual basis and includes the interest accrued on the deposits of customers and banks, as well as on loans received and other borrowed funds, fees and commissions under loans received, which represent an integral part of the effective interest expense.

The unearned finance income is the difference between the gross investment in the lease and the net investment of the lease. The gross investment in the lease is the aggregate of the minimum lease payments receivable by the lessor under a finance lease and any unguaranteed residual value according to the lessor. Interest income from leasing operations (financial income) are allocated for the duration of the lease and are recognized on the basis of constant periodic rate of return on net investment of the lessor.

Fees and commissions

Fees and commissions on bank guarantees are recognised on a systematic basis over the period of existence of the exposure to match the cost of providing the service.

Trust management fees are recognised on accrual basis throughout the period of providing the service.

Fee and commission expenses related to servicing nostro accounts with other banks or to the provision of another bank service are recognised at the time of provision of the underlying service and attaining the result from it.

Transactions in foreign currency

Foreign currency transactions are transformed into BGN by applying the daily exchange rate as quoted by the Bulgarian National Bank (BNB) as of the day of the transaction. The receivables and liabilities in foreign currency are revalued on a daily basis. At the end of the year they are revalued in BGN according to closing official rate of BNB, which for the main currencies as of the dates of the financial position are the following:

Foreign currency	31 December 2012	31 December 2011
US dollars	1.48360	1.51158
Euro	1.95583	1.95583

Since 1999 the Bulgarian Lev is pegged to the Euro, the official currency of the European Union, at ratio of EUR 1: BGN 1.95583.

The net gains or losses from changes in the exchange rates incurred from revaluation of receivables, liabilities and from transactions with foreign currencies are included in the statement of comprehensive income, for the period in which they have occurred.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBERII 2012

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Provisions and contingent liabilities

Provisions are recognised when the Group has a current constructive or legal obligation as a result of a past event and it is probable that an outflow of resources will be required to repay/settle this obligation. The provisions are measured based on the best estimate, made by the management at the end of reporting period, concerning the expenses that will be incurred for the settlement of the particular obligation. The estimate is discounted if the obligation is long-term. For the measurement of the portfolio provisions statistical methods are applied, based on historical experience and gathered data regarding behavior and events under the guarantee commitments.

Contingent liabilities are obligations arising from past events, the existence of which can be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not entirely within the control of the Group, or it is not probable that an outflow of resources will be required to settle the obligation. They are not recognised in the statement of financial position but are subject to special disclosure.

Pensions and other payables to personnel under the social security and labour legislation

According to the Bulgarian legislation, the Group is obliged to pay contributions to social security health insurance funds. The employment relations of the employees with the Group, in its capacity of an employer, are based on the provisions of the Labour Code.

Short-term employee benefits

Short-term income of the employees of the Group in the form of remunerations, bonuses and social payments and benefits are recognised as an expense in the statement of comprehensive income in the period when the service thereon has been rendered or the requirements for their receipt have been met and as a current liability at their undiscounted amount. The Group's payables for social security and health insurance are recognised as a current expense and liability at their undiscounted amount together with the respective benefits they relate to and within the period of their accrual.

At the end of each reporting period the Group assesses and reports the amount of expected costs on the accumulating paid leaves, which amount is expected to be paid as a result of the unused entitlement. The assessment includes the estimated expenses on the employee's remunerations and the statutory social security and health insurance contributions due by the employer thereon.

Long-term retirement benefits

In accordance with the requirements of the Labour Code, the employer is obliged to pay to its personnel upon retirement an indemnity, which depending on the length of service with an entity varies between two and six gross monthly salaries as at the termination date of the employment. In their nature these are defined benefit plans.

The calculation of the amount of these liabilities requires the participation of qualified actuaries in order to determine their present value at the date of the financial statements, at which they are included in the statement of financial position, adjusted with the amount of the unrecognised actuarial gains and losses, and respectively, the change in their value including the recognised actuarial gains and losses is included in the statement of comprehensive income (profit or loss for the year).

Past service costs are recognised immediately in the statement of comprehensive income.

.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER# 2012

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Long-term retirement benefits (continued)

At the date of issue of each set of annual financial statements, the Group assigns certified actuaries who provide their report with calculations regarding the long-term retirement benefit obligations. For this purpose, they apply the Projected Unit Credit Method. The present value of the defined benefit obligation is determined by discounting the estimated future cash flows, which are expected to be paid within the maturity of this obligation, and using the interest rates of long-term government bonds, denominated in Bulgarian leva.

Actuarial gains and losses arise from changes in the actuarial assumptions and experience adjustments. Those exceeding the 10% corridor against the present value of the defined benefit obligations at the end of the prior year, are recognised immediately in the statement of comprehensive income (within the profit or loss for the year). The changes in the amount of the liabilities to personnel for indemnities upon retirement, including the interest from unwinding of the present value and the recognised actuarial gains or losses, are recognised as expenses on personnel in the statement of comprehensive income.

Termination benefits

In accordance with the provisions of the Labour Code, the employer is obliged, upon termination of the employment contracts prior to retirement, to pay indemnities as follows:

- for non-observed preliminary notice: one gross monthly salary:
- due to closing down of the enterprise or part of it, staff cuts, reduction of the volume of work and work stoppage for more than 15 days, etc.; one gross monthly salary;
- upon termination of the employment contract due to illness: two gross monthly salaries;
- for unused annual paid leave: for the respective years of the time recognised as service period.

The Group recognizes employee income obligations in the event of employment termination before the normal retirement date when it is demonstrably committed, based on announced plan, to terminating the employment contract with the respective individuals without possibility of withdrawal or in case of formal issuance of documents for voluntary redundancy. Termination benefits due more than 12 months are discounted and presented in the statement of financial position at their present value

Taxation

Current income taxes are determined in accordance with the requirements of the Bulgarian tax legislation. Current tax comprises tax payable calculated on the basis of the expected taxable income for the year, using the tax rates enacted by the date of preparation of the statement of financial position.

The tax effect, related to transactions and other events, reported in the statement of comprehensive income are recognised as well in the statement of comprehensive income and the tax effect related to transactions and other events, reported directly in the equity, is also recognised directly in the equity.

Deferred tax liabilities are reported for all temporary differences, subject to taxation, except in the events when they arise from the initial recognition of assets and liabilities for a transaction, which at the time of being concluded is not reflected in the accounting or the tax income (tax loss).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER# 2012

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Taxation (continued)

Deferred tax assets are recognised for all temporary differences, subject to deduction, to the extent that it is probable that there might be an available taxable profit, against which the relevant deductions under the deferred tax receivables can be made. This is not applicable for the cases when they arise from the initial recognition of assets and liabilities for a transaction, which at the time of being concluded is not reflected in the accounting or the tax income (tax loss).

The deferred taxes are recognised as income or expenses and are included in the net profit for the period, except in cases, when these taxes arise from transactions or events, reported for the same or another period directly in the equity. Deferred taxes are charged or deducted directly from the equity, when these taxes refer to positions, which are charged or deducted during the same or a different period directly in the equity.

Cash and cash equivalents

For the purposes of the cash flow statement cash equivalents comprise cash on hand, cash at current accounts with other banks, demand deposits and placements with other banks – payable at sight and/or with original maturity up to 3 months, including repo deals with original maturity up to 3 months, as well as unrestricted (not blocked) balances with the Central Bank (BNB).

They are presented in the statement of financial position at amortised cost.

Assets classified as held for sale

Assets are classified as held for sale, if their carrying amount will be recovered through a sale and not through a continuing use in the operations of the Group. Usually, these assets have been initially accepted by the Group as collaterals and subsequently acquired thereby as a result of a "debt against property" exchange by borrowers that do not perform their obligations as per the agreed terms of loans.

Assets classified in this group are available for immediate sale in their present condition. The management is engaged actively and performs events to realize a sale within at least one year after the date on which the asset has been classified in this group.

Assets classified as held for sale are presented in the statement of financial position separately and are measured at the lower of their carrying amount and their fair value less the direct expected costs to sell.

The assets within this classification group are not depreciated.

Segment reporting

The Group does not report operating segments, because its major source of risks and returns is the corporate business sector, there isn't a single external customer the revenues from which to form more than 10% percent of the total revenue, and the Group operates throughout the country. If in the future these factors change and the Group reports operating segments they will be determined and reported in accordance with the requirements of IFRS 8 Operating segments.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBERII 2012

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

New standards and interpretations not yet adopted

A number of new standards, amendments to standards and interpretations, endorsed by the EC, are available for early adoption in the annual period ended 31 December 2012, although they are not yet mandatory until a later period. These changes to IFRS have not been applied in preparing these financial statements. The Group does not plan to adopt these standards early.

Standards, Interpretations and amendments to published Standards that have not been early adopted – endorsed by the EC:

- Amendments to IFRS 7 Disclosures Offsetting Financial Assets and Financial Liabilities shall be applied, at latest, as from the beginning of the first financial year starting on or after 1 January 2013. The Group does not expect the Amendments to have any impact on the financial statements since it does not apply offsetting to any of its financial assets and financial liabilities and it has not entered into master netting arrangements.
- IFRS 10 Consolidated Financial Statements, IFRS 11 Joint Arrangements, IFRS 12 Disclosures of Interests in Other Entities, IAS 27 Separate Financial Statements (2011) which supersedes IAS 27 (2008) and IAS 28 Investments in Associates and Joint Ventures (2011) which supersedes IAS 28(2008) shall be applied, at latest, as from the beginning of the first financial year starting on or after 1 January 2014.

The Group does not expect IAS 27 (2011) to have material impact on the financial statements, since it does not results in a change in the entity's accounting policy.

- IFRS 13 Fair Value Measurement provides a single source of guidance on how fair value is measured, and replaces the fair value measurement guidance that is currently dispersed throughout IFRS. Subject to limited exceptions, IFRS 13 is applied when fair value measurements or disclosures are required or permitted by other IFRSs. The Group is currently reviewing its methodologies in determining fair values. IFRS 13 shall be applied, at latest, as from the beginning of the first financial year starting on or after 1 January 2013.
- Amendments to IAS 1 Presentation of Items of Other Comprehensive Income are shall be applied, at latest, as from the beginning of the first financial year starting on or after 1 July 2012. The impact of the initial application of the amendments will depend on the specific items of other comprehensive income at the date of initial application. If the Group were to adopt the amendments from 1 January 2012, then the following items of the other comprehensive income would be presented as items that may be reclassified to profit or loss in the future: BGN 123 thousand recognised in the revaluation reserve of available-for-sale securitites.
- Amended IAS 19 Employee Benefits shall be applied, at latest, as from the beginning of the first financial
 year starting on or after 1 January 2013. If the Group were to adopt the amendments earlier than 1 January
 2013, the impact would be a debit to other comprehensive income for the year ending 31 December 2012 of
 the BGN 5 thousand, debit to deferred tax asset of BGN 1 thousand and a credit to defined benefit obligation
 of BGN 6 thousand.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBERIJ 2012

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

New standards and interpretations not yet adopted (continued)

- Amendments to IAS 12 Deferred Tax: Recovery of Underlying Assets is effective shall be applied, at latest,
 as from the beginning of the first financial year starting on or after 1 January 2013. The Group does not
 expect the amendments to have any impact on the financial statements, since they do not result in a change in
 the accounting policy.
- Amendments to IAS 32 Offsetting Financial Assets and Financial Liabilities i shall be applied, at latest, as
 from the beginning of the first financial year starting on or after 1 January 2014. The Group does not expect
 the Amendments to have any impact on the financial statements since it does not apply offsetting to any of its
 financial assets and financial liabilities and it has not entered into master netting arrangements.
- IFRIC Interpretation 20: Stripping Costs in the Production Phase of a Surface Mine shall be applied, at latest, as from the beginning of the first financial year starting on or after 1 January 2013. The Group does not expect the Interpretation to have any impact on the financial statements since it does not have any stripping activities.
- Amendments to IFRS 1 Severe Hyperinflation and Removal of Fixed Dates for First-time Adopters shall be applied, at latest, as from the beginning of the first financial year starting on or after 1 January 2013. The Group does not expect the Amendments to have any impact on the financial statements.

IASB/IFRIC documents not yet endorsed by EC:

Management believes that it is appropriate to disclose that the following new or revised standards, new interpretations and amendments to current standards, which are already issued by the International Accounting Standards Board (IASB), are not yet endorsed for adoption by the European Commission, and therefore are not taken into account in preparing these financial statements. The actual effective dates for them will depend on the endorsement decision by the EC.

- IFRS 9 Financial Instruments (issued November 2009 and Additions to IFRS 9 issued October 2010) has an
 effective date 1 January 2015 and could change the classification and measurement of financial instruments.
- Amendments to IFRS 1 Government Loans with an effective date of 1 January 2013.
- Improvements to IFRSs 2009-2011 with an effective date of 1 January 2013.
- Amendments to IFRS 10, IFRS 11 and IFRS 12 Transition Guidance with an effective date of 1 January 2013.
- Amendments to IFRS 10, IFRS 12 and IAS 27 Investment Entities with an effective date of 1 January 2014.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER # 2012

4. FINANCIAL RISK MANAGEMENT

In the ordinary course of business, the Group is exposed to a variety of risks. These risks are identified, measured and monitored through various control mechanisms in order to be managed and to prevent undue risk concentration. The process of risk management is essential for the Group's financial position, profitability and existence. The main risks, to which the Group is exposed, are credit risk, market risk and liquidity risk, as well as operating risk.

Risk management structure

The main units that are directly responsible for risk management are as follows:

For the parent company (the Bank):

Supervisory Board - performs overall supervision of risk management;

Management Board – responsible for the overall risk management approach and for approving risk management strategies, principles and specific methods, techniques and procedures;

Assets and Liabilities Committee - responsible for the strategic management of the assets and liabilities and for the market risk management, including liquidity risk management, related to the assets and liabilities.

Provisions Committee and Credit Council – analyses credit transactions from the perspective of credit risk management in general for the loan portfolio, as well as at the level of credit deals and borrowers:

Executive Directors and members of the Management Board – exercise current operating control of the maintenance and monitoring of the set limits for the particular types of risk and the application of the developed procedures.

The Central Bank carries an additional supervision of the risk managemet by requiring periodically regulatory reports and subsequent control on the compliance of the statutory set maximum levels of exposure to certain risks.

For the subsidiary National Guarantee Fund (the Fund):

Supervisory Board - Management Board of BDB AD - performs overall supervision of risk management:

Board of Directors – responsible for the overall approach towards risk and approves risk management strategies, principles and specific methods, techniques and procedures for risk management;

Gurantee Administration and Monitoring Department — performs monitoring of the guaranteed portfolios and the collateral provided. At least annually an inspection over the fulfillment of the economic and social requirements for the SME using a guarantee from the Fund is carried out.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER# 2012

4. FINANCIAL RISK MANAGEMENT (CONTINUED)

For the subsidiary Microfinance Institution "JOBS":

Board of Directors – adopts rules and procedures for risk management. Control the risk factors of the Company and take decisions within their powers;

Credit committee – monitors and analyzes the loan and lease portfolio of the Company in terms of credit risk, including individual transactions;

Credit Council - analyzes credit and leasing transactions in terms of credit risk management in their resolution and / or renegotiation;

Operational Management (Executive director and Procurator) – organize the activities for the implementation of the Rules for Risk Management adopted by the Board of Directors. Creates an organization of work, which ensures compliance with the set limits and levels of risk. Controls the compliance of the procedures for analysis, measurement and evaluation of the risk with the adopted by the Board of Directors internal documents.

Risk management Department – develops and implements a system for risk management. Prepares and submits to the Board of Directors periodic reports for assessing the operational risks, including the observance of the limits, and reports on an ongoing basis to the Opreational Management. Performs initial and on-going validation of the methods for risk assessment. Examines incoming data needed for the risk assessment in accordance with applicable methods of reliability and sufficiency.

Measurment and management of major risks

The management of the companies comprising the BDB Group has adopted a set of internal rules and procedures for the measurement of the different risks which are based on statistical models and good international banking practice, as well as on the historical experience of the Group itself.

The monitoring and the management of the risks are primarily based on limits. Those limits reflect on the Group's strategy and the market position of the Group, as well as on the level of risk that can be born. Reports on the specific types of risks are periodically prepared for the purpose of subsequent analysis and possible adjustments of already set limits.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 1 2012

4. FINANCIAL RISK MANAGEMENT (CONTINUED)

4.1. Credit risk

Credit risk is the risk that the customers/counterparties will fail to discharge their contractual obligations in full and on time to the Group.

The credit risk is the main risk for the Group and its management is fundamental in the Group's activity. Credit risk management is performed in accordance with the law for BDB AD and with the operative laws and regulations of Republic of Bulgaria related to credit activity as long as with the international regulations and bank best practices.

At portfolio level, the Bank have established units for current monitoring and control of the quality of the credit portfolio – Working group for overdue credits, Working group for current control of the credit portfolio, Provisions Committee.

The management of specific credit risk is performed by the Credit Committee of the Bank and is supervised by both the Management Board and the Supervisory Board. The credit risk management function ensures that appropriate policies are established and its compliance with the related credit monitoring procedures and controls for current supervision of the credits. Exposure to credit portfolio risk is managed through regular analysis of the ability of the borrowers to meet interest and capital repayment obligations and by establishing lending limits as appropriate. Exposure to credit risk is also reduced in part by obtaining different types of collateral.

Based on a Guarantee letter from year 2003 and the subsequent annexes signed with the European Investment Fund (EIF), the Bank participates in the EU SME Guarantee Facility under conditions determined by the long-term EU Program on SMEs. EIF is committed to provide a direct guarantee covering 50% of the remaining loss on the principal and interest of each loan, included in the sub-portfolio of the Group, formed on the basis of the conditions of the agreement, but not exceeding EUR 2,520 thousand. The Bank has applied reduced requirements in accepting collaterals for the EIF-guaranteed portfolio of loans.

The volume of the loans with EIF guarantee amounts to BGN 10,855 thousand as of 31,12,2012. (As of 31,12,2011: BGN 13,304 ths.). This amount includes the drawn but not paid portion of loans and the engagements undertaken by the Bank under un-drawn loans. The payment engagements of EIF at this date amount to BGN 4,929 ths. (31,12,2011: BGN 4,929 ths.), whereas the losses covered by EIF amount to BGN 3,333 ths.(31,12,2011: BGN 3,285 ths.).

Letters of guarantee and letters of credit represent another source of the credit risk. The main purpose of the instruments in form of letters of guarantee and letters of credit is to ensure funds for the customer in case of need. Letters of guarantee and letters of credit, representing irrevocable commitment of the Group to make a payment in case the customer is not able to meet his/her obligations to a third party. These instruments bear the same credit risk as the loans. Documentary and trade letters of credit, representing written commitment of the Bank on behalf of a customer, authorize a third person to draw funds up to a certain amount under certain conditions. Usually, they are secured with cash deposits, and so they are less risky than direct financing.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER # 2012

4. FINANCIAL RISK MANAGEMENT (CONTINUED)

4.1. Credit risk (continued)

The un-drawn portion of authorized loan agreements in form of loans, letters of guarantee or letters of credit represents commitments of the parent company (The Bank). In relation to the credit risk the Bank is potentially exposed to loss to the amount of the total un-drawn commitments. However, the likely amount of loss is less than the total un-drawn funds since most commitments to extend credits are contingent upon customers maintaining specific credit standards. The Bank monitors on a current basis the utilization periods of the loans because longer-term commitments generally have a greater degree of credit risk than the short-term commitments.

The special financial guarantees, representing irrevocable commitment that the parent-company (the Bank) or its subsidiary (the Fund) will pay in case a partnering bank, having financed SME under the scheme of the Microcredits Guarantee Fund Project, is experiencing serious problems with certain debtor-borrowers under the scheme, classifies their loans as "loss" and disposes with a writ of execution against the bad debtors, have similar risky characteristics as loans. The parent-company (the bank) manages the guarantee portfolios of the Group at consolidated level by applying all the rules and procedures, regarding the management of the credit risk of the loan portfolios (loans and advances to banks and to customers).

Additionally to these procedures, the subsidiary (the Fund) has also developed specific principles, rules and limits for current monitoring and control upon guarantee portfolios:

a) the total guarantee exposure to the capital of the fund ratio and possible leverage of up to 3 times the amount of the capital; b) shared and joint current control of the loss between the Fund and the partner-bank and creditor of loans guaranteed by the Fund; c) the loans in the portfolios of partner-banks and creditors, guaranteed by the Fund, have to be secured with assets or engagements of the borrower or by third persons mandatory; d) set of limits for each portfolio guaranteed to the respective partner-bank and creditor; e) diversification of the whole guaranteed portfolio by industry sectors, by regions, by maturities and others; f) the guarantees of the Fund cannot be transferred unless explicitly authorized by it. The fulfilment of the limits and diversification designated are quarterly examined by the Board of Directors of the Fund. In case of breaches respective actions are undertaken, as defined in the contracts with the partner-banks.

Maximum exposure of the credit risk

The exposure to the credit risk attributable to financial assets recognised in the statement of financial position is as follows:

In thousand of BGN	2012	2011
Financial assets		
Cash and balances with the Central Bank	51,606	70,335
Loans and advances to banks	1,000,478	973,092
Loans and advances to customers	462,383	455,960
Receivables from the State Budget	12,666	335,395
Available-for-sale securities	125,401	16,560
Held-to-maturity securities	5,035	5,117
Financial assets held-for-trading	3,191	2,995
Net investment in finance lease	2,240	992
	1,663,000	1,860,446

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER #4 2012

4. FINANCIAL RISK MANAGEMENT (CONTINUED)

4.1. Credit risk (continued)

The exposure to credit risk attributable to off-balance sheet contingent commitments not recognised in the statement of financial position is as follows:

In ths.of BGN	2012	2011
Bank guarantees and letters of credit	127,603	162,065
Un-drawn authorized loans	43,381_	34,490
	170,984	196,555
Maximum exposure to credit risk	1,833,984	2,057,001

Credit risk - concentration

The Management of the parent company (The Bank) currently monitors the credit risk of concentration of financial assets both by industry sector and by individual counterparty. Limits for maximum exposures are established and periodically analyzed and measured. Due to its major objectives, the Bank has risk exposure of concentration of loans to small- and medium sized enterprises and of long-term investment loans − with maturity of 3 to 10 years (Notes № 18 and 19).

Each variance from the set limits for concentration is approved by the Management Board of the Bank.

The financial assets of the Bank (loans and receivables and finance lease), classified by industry sectors, are presented in the table below:

Sectors				
In thousand of BGN	2012	5%	2011	%
Financial services	1,000,848	63.57	973,442	53.12
Manufacturing	182,494	11.59	160,454	8.76

	1,574,341	100.00	1,832,650	100.00

Quality of the loans and receivables

The parent company (The Bank) has implemented internal regulations for risk assessment of every counterparty. The risk assessment is made according to a methodology based on current financial information, forecasts, investments projects execution and targeted use of funds, manner of exposure servicing and information on the state of accepted collaterals. Loans and receivables are classified in four risk groups (2011.: four risk group) depending on the result of the assessment. The adopted classification groups are as follows: "standard", "watch", "non-performing" and "loss".

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER # 2012

4. FINANCIAL RISK MANAGEMENT (CONTINUED)

4.1. Credit risk (continued)

The classification of risk exposures is within the competence of the Provisions Committee and is made on monthly basis. In addition, current financial information is required from customers quarterly and is subject to analysis under an internal methodology of Risk and Regulations Department. The investment projects execution and, respectively, loan withdrawal and utilization are currently monitored. The provided collaterals, which are subject to approval by the Credit Committee, are reviewed and revaluated periodically, but not less than once per year. All decisions of the Provisions Committee are controlled and approved by the Management Board of the Bank (the parent company).

The structure of the financial assets of the Group by risk classification groups is as follows:

In thousand of BGN	Standard	Watch	Non-performing	Loss	Total
As at 31 December 2012

All loans granted to non-financial institutions and individuals are secured. The accepted collaterals are mainly mortgages of land and industrial property, hotels, trade and residential buildings. Additional collaterals are also accepted in the form of pledge on machinery, equipment and inventories, securities, cash deposits, corporate shares, promissory notes, avals and guarantees from third parties. The common practice of the Group is to require from loan applicants a collateral at least 100% of the contracted loan amount.

4. FINANCIAL RISK MANAGEMENT (CONTINUED)

4.1. Credit risk (continued)

The Bank may re-negotiate the initial conditions under the signed contacts in case of a request by the contacting parties. Usually these conditions are the terms for disbursement of the loans, loan amounts, interest rates and/or repayment schedules with regard to the amounts of the repaid installments. This is often observed in the case of changes of the projects' original parameters, objectives and scope, including the time schedule for their completion.

The re-negotiated loans and receivables, presented at amortised cost, are as follows:

· · · · · · · · · · · · · · · · · · ·	2012	2011

4. FINANCIAL RISK MANAGEMENT (CONTINUED)

4.2. Market risk

Market risk is the risk of adverse movements of the interest rates, the exchange rates between currencies and the market price of securities and other financial instruments. These movements affect the Group's profitability and financial position.

Interest risk

Interest risk is the probability for potential change of the net interest income or the net interest margin and the market value of the equity due to the changes in the total market interest levels.

The interest risk is related to the overall activity of the Group. Tables with the financial assets and liabilities grouped in time intervals depending on their sensitivity to changes in the interest rates, are prepared on regular basis. Where period inconsistencies exist, changes in the interest curve are made to measure the potential risk for the interest income of the Group. Besides the interest rate sensitivity analyses made, for the interest risk management main sources related to the change in the net interest spread of the Group are also identified. This helps decision making on the interest rates policies of the Group, in particular the development of specific products and providing sources of financing with the respective characteristics.

In order to determine the interest rates on loans and amounts due from non-financial institutions, the Group has implemented internal base levels, which are related to the used financial resources for funding these loans – equity, special-purpose long-term credit facilities and other which are periodically reviewed.

Assets and Liabilities Committee currently monitors the interest risk to which the Group is exposed and develops measures for its coverage and maintenance within the bank's permitted levels and limits.

The table below summarizes the interest exposure and risk of the Group. It includes information on Group's assets and liabilities at their book value in accordance with interest-related clauses, set in the contracts, their maturity structure and sensitivity to the behavior of the interest rates.

Sensitivity of the interest assets and liabilities with floating interest rate

The table below represents the sensitivity of the Bank on possible changes in the interest rate based on the structure of assets and liabilities as of 31 December with floating interest rate and with the assumption that the influence of the other variables is ignored. The effect is measured and presented as an impact on the financial results after tax. The actual effect of changes in the market interest rates could be different, as a significant portion of the loans and receivables from customers are accumulated at a floating interest rate, based on the determined by the Bank's variable portion, which is influenced by numerous factors.

	2	012	2011		
Currency	Increase in percentage points	Sensitivity of the financial result	Increase in percentage points	Sensitivity of the financial result	
BGN	0.50%	(999)	0,50%	(1,255)	
EUR	0.50%	25	0.50%	(274)	
BGN	-0,50%	999	-0,50%	1,225	
EUR	-0.50%	(25)	-0.50%	274	

Currency risk

The currency risk is a risk with a negative impact of fluctuations in the prevailing currency exchange rates on the financial position and cash flows of the Group as a result of open currency positions. In the currency risk management the Group follows the principle of maintaining a minimal open currency positions according to set limits. The currency positions are not formed with speculative purposes but after transactions in foreign currencies related to the normal operating activities. Policy of the Group is that the main part of the assets and liabilities, and respectively the bank operations, are denominated in EUR or BGN. The Group does not carry out significant transactions and does not hold significant open positions in currencies other than EUR and BGN. As the Bulgarian lev is pegged to the euro, there is no significant open currency risk for the Group.

The following table summarizes the Group's exposure to currency risk. The table includes the financial instruments and the contingent liabilities and commitments of the bank at book value, categorized by type of currency.

Price risk of shares quoted on the Stock Exchange

The Group is exposed to price risk in respect to the shares it holds, classified as investments available-for-sale. The management of the Group monitors and analyzes all changes in the securities market, as well as uses the advisory services of authoritative investment intermediaries in the country. In addition, at this stage, due to the economic and financial crisis, the management of the Group has decided to greatly reduce the operations on the stock markets, the hold of the purchased shares in the longer horizon for ongoing monitoring of the reported from the respective issuer financial and business indicators, as well as the development of its activities under the circumstances of a crisis.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER# 2012

4. FINANCIAL RISK MANAGEMENT (CONTINUED)

4.3. Liquidity risk

Liquidity risk is the risk that the Group is unable to meet its current and potential payment obligations as and when they fall due without unacceptable losses.

The business of the Group requires a stable flow of funds both to replace existing deposits and received loans as they mature and to satisfy demands of customers for additional borrowing. Undrawn borrowing facility commitments and the level of all outstanding contingent obligations are taken into consideration in managing the liquidity risk in the Group.

The matching and controlled mismatching of the maturities and interest rates of assets and liabilities is fundamental to the liquidity management of the parent company (The Bank). It is unusual for banks ever to be completely matched. An unmatched position potentially enhances profitability, but also increases the risk of losses. The maturities of assets and liabilities and the ability to replace, at an acceptable cost, interest-bearing liabilities as they mature are important factors in assessing the liquidity of the Bank and its exposure to changes in interest rates and exchange rates. To manage this risk, the parent company (The Bank) maintains at all times highly liquid assets depending on the currency of its liabilities. The overall liquidity control and monitoring are performed by the Assets and Liabilities (Liquidity) Committee and is based on maturity tables with scenarios for measuring the net cash flows by periods and normatively enacted by Bulgarian National Bank ratios. Additionally varieties of correlations are monitored to indicate the liquid position by periods. Liquidity risk is also measured through application of additional tree scenarios for the cash flows from the operations and monitoring of the liquidity buffers of the parent company (The Bank) and the additional sources of financing in case of market and idiosincraty shocks.

The table below presents the amounts in percentage of the ratio of liquid assets to liabilities of the Group:

	2012	2011	
	%	%	
As at December 31-st	30,19%	14.63%	
Average for the period	19.22%	26.27%	
Highest for the period	35.67%	37.90%	
Lowest for the period	10.98%	14.63%

4. FINANCIAL RISK MANAGEMENT (CONTINUED)

4.3. Liquidity risk (continued)

The liquidity requirements to support calls under guarantees and letters of credit are considerably lower than the amount of the commitment because the Group does not generally expect the third party to draw funds under these agreements.

The table below presents the gross undiscounted cash flows related to the Group's liabilities as of 31 December:

As at 31 December 2012	Carrying amount	Gross nominal	Less than 1	From 1 to 3	From 3 to 12	From 1 to 5 years	Over 5 years

4. FINANCIAL RISK MANAGEMENT (CONTINUED)

4.4 Equity management

The main objectives of the Group's capital management is to maintain its level at amounts sufficient for activities development and achieving the general objectives set at its foundation – support of the economic policy of the country and the development of small- and medium-sized businesses.

In its activities the Group should observe the regulatory requirements for capital adequacy (Notes $N_{\rm B}$ 34, 35), as well as continue operating as a going concern.

The table below shows the main equity components following the regulatory requirements and ratios achieved by the Group:

	2012	2011

5. USE OF ACCOUNTING ESTIMATES AND JUDGEMENTS

Accounting estimates

The presentation of the consolidated financial statements in accordance with the International Financial Reporting Standards requires the management to make the best estimates, accruals and reasonable assumptions, which affect the reported amounts of assets and liabilities, revenues and expenses and disclosure of contingent claims and liabilities as of the reporting date. These estimates, accruals and assumptions are based on the information available as of the date of the financial statements and this may lead to differences in the future actual results. The items, that require a higher degree of discretion or complexity or where the assumptions and accounting estimates are essential for the financial statements, are disclosed below.

Key estimates and assumptions with high uncertainty

a) Impairment losses on loans and advances

At the date of each financial statement the Group reviews its loan portfolio in order to detect the availability and calculates the losses from such impairment. When determining whether to include the impairment loss in the statements for the comprehensive income, the Group's management considers whether there are and what are the visible indicators and data, which indicate that there is a measurable reduction in the expected cash flows of the loan portfolio as a whole, or respectively – a decrease associated with a particular loan/component from this portfolio. Such indicators and data are those that indicate the existence of an adverse change in the payment options by the borrowers from a particular group or by a particular borrower, or the presence of national, economic or other conditions that are associated with a particular risk for a given group/type of loans.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER# 2012

5. USE OF ACCOUNTING ESTIMATES AND JUDGEMENTS (CONTINUED)

Key estimates and assumptions with high uncertainty, continued

a) Impairment losses on loans and advances, continued

When analyzing the risks of impairment losses and uncollectability, the loans are grouped into four risk classification groups: "standard", "watch", "non-performing" and "loss". The main indicators for determining the risk groups are financial condition of the debtor and project implementation, funded by the loan, problems with servicing, including interest in arrears and maturing principal, sources of repayment and granted collateral, as a type and opportunity for realization. Additionally, for loans, guaranteed by the EIF, the impairment loss is recognized after deduction of the part, borne by the Fund (Note N_2 4.1).

In determining the future cash flows pattern, the management of the Group uses estimates, judgments and assumptions based on its historical loss experience for assets with similar credit risk characteristics, as well as an objective evidence for impairment of the portfolio from non-crystallized loss in a particular component thereof. Analogous approach is used also for assessments at individual loan level taking into account the quality of collaterals as well. The methodology and assumptions used for estimating both the amount and timing of future cash flows are reviewed regularly so as to minimize the discrepancies between loss estimates and actual loss experienced (Note Ne 12, 18).

In 2012, the management has made a retrospective analysis of actual losses experienced on loans for a ten year period (2001 to 2011 incl.) in order to update the applicable rates for loan impairment on a portfolio basis.

As a result of this analysis, the applied rate of impairment on a portfolio basis has been increased from 1.83% to 2.75%.

b) Measurement of available-for-sale financial instruments non-quoted on the active stock market

The Group classifies its investments as share participation in other non-public companies/entities (below 20% of their capital) as available-for-sale financial assets that have been acquired for the purpose of establishing and development of business relations of importance for the bank. The management has judged and accepted that they should be measured at cost because sufficiently reliable sources and methods to determine their fair value are not available at present and due to the specific closed manner of their trading until the time when new circumstances occur that allow the formation of reasonable assumptions and reliable valuation.

Analysis and assessment is performed at each end of reporting period as to whether indicators for impairment of the Group's investments are present. The significant and continuous decrease in the equity, including below the level of the registered share capital of the company/entity, subject to the investment, is regarded as a main indicator. In such cases impairment is determined with the assistance of a certified appraiser but at least at the level of the difference between the acquisition cost (cost) and the assessment of participation under the equity method including with additional adjustments of net assets, if necessary. In the cases of partial sales of similar shares in the reporting period, those from the same issuer but remaining in the Group's statement of financial position are revalued at the price of the sale (Note N_2 9, 20).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER # 2012

5. USE OF ACCOUNTING ESTIMATES AND JUDGEMENTS (CONTINUED)

c) Impairment of available-for-sale financial instruments quoted on stock market

As at 31.12.2012 the Group had made a detailed comparative analysis of the changes in the stock market prices of public companies shares held by the bank on the national fund market.

For investments in companies, whose shares are listed for the Bulgarian Stock Exchange of dealing the management has carried out investigation and analysis—and is in position to assess further on fair value, determined directly on realized transactions in the stock market in the last month of the financial year (Level 1). In addition, the applied prices are analyzed for trends in the behavior in stock exchange prices of the respective securities at least for the last three months of the year and respectively to for the date of issuing of the financial statements. (Notes N_2 9, 15, 20). The management has used compulsory and alternative valuation methods for further confirmation of the applicable assessment as fair value for both reporting years.

For all investment securities available for sale, held by the Group more than one year after the date of acquisition, has performed a special analysis of monitored graphics of the stock exchange prices and fair values, defined by alternative methods of valuation for a period of 18 months to 31 December, in order to define if there are conditions of permanent and material impairment.

d) Provisions for issued bank guarantees

At the end of each reporting period the Group reviews its contingent liabilities for the purpose of establishing whether any events have occur, that would confirm with a high probability outflow of resources might take place for the settlement of an obligation. If such events occur, the Group provides its liability up to the amount of its future costs (loses) related to the outflows from economic benefits (payments). These costs (loses) are determined on the basis of the present value of the future net cash flows, representing the difference between the payment obligation and the possible inflows from subsequent resources to third parties (Notes № 12, 36).

With regard to portfolio guarantees related to the implementation of the Micro-credits Guarantee Fund Project of the Ministry of Labor and Social Policy (as per the BDB Act), in 2012 a retrospective analysis was made of the actual losses from loans granted (for which guarantees had been issued) for a seven-year period by partner-bank. An average percentage of losses were determined for the whole period under assessment by partner-bank and in general for the whole portfolio of such type of loans, using appropriate statistical instruments. As a result of the analysis the management has determined the average percent of loss for the whole portfolio to be 32.50% (2011: 32.50%) as minimum level for calculation of provisions for losses by partner-bank and when the average rate for a particular bank is higher than that minimum level, the respective percent for that is applied. The obtained average percent of the provision against the whole guarantee portfolio under this project is 32.50 % (2011: 32.50%).

e) Actuarial calculations

For assessing the present value of the long-term liabilities to employees upon retirement are used actuarial methods and calculations based on assumptions for mortality rate, staff turnover rate, future level of salaries and discount factor considered by the management as reasonable and relevant to the Group (Note N_2 33).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER # 2012

5. USE OF ACCOUNTING ESTIMATES AND JUDGEMENTS (CONTINUED)

Fair value of financial assets and liabilities

The fair value is defined as the value compared to which an asset could be changed or a liability could be settled between informed and willing parties in a fair transaction. The Group publishes information for the fair value of those financial assets and liabilities for which there is available market information and whose fair value is materially different from the one reported in the statement of financial position.

The fair values of financial assets and liabilities dealing on active markets and for which there is available market information are based on declared market prices or prices closing. The use of real market prices and information reduce the need for information of management assessment and assumptions, as well as the uncertainty related to determination of the fair values. The availability of real market prices and information varies depending on products and markets and changes according to the specific events and the general financial market conditions. For some of the other financial instruments the Group determines the fair values by using of assessment method based on net present value. The net present value calculation is provided by market yield curves and credit spreads, where necessary for the respective instrument. The purpose of evaluation techniques is to determine fair value, which would be précised by direct market participants. For investments in subsidiaries and associated companies and equity investments for which there are no observable market prices, the Group accepts, that the fair value is the price of acquisition. The Group has established control environment under assessment of fail values.

The fair value of financial instruments not traded in active markets that are the subject of a transaction between the parties are determined using valuation techniques (such instruments as derivatives not traded on the market). These valuation techniques adhere to the use of market data when available and as less as possible to the use of specific assessments of the company. If there is significant increase in requirements for fair value of the reference financial instrument, it is included in Level 2.

Fair Value Hierarchy

The Groupdetermines the following hierarchy for disclosing the fair value of financial instruments using valuation techniques:

- Level 1: quoted (not adjusted) prices on active markets for identical assets or liabilities;
- Level 2: other techniques for which all of the incoming information, which has a material effect on the reported fair value is subject to monitoring, either directly or indirectly;
- Level 3: techniques that use an incoming information, which has a material effect on the reflected fair value not based on the observed market data. In addition, this level includes investments valued at cost, for which no reliable market value exists.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER# 2012

5. USE OF ACCOUNTING ESTIMATES AND JUDGEMENTS (CONTINUED)

The following tables summarize the information on the assets and liabilities at fair value for 2012 and 2011:

Loans granted to foreign banks	<u> </u>	3,366
	1,000,478	973.092

As at 31.12.2012 there are loans granted to local banks with nominal value of EUR 14.750 ths. and BGN equivalent 28,848 ths. (31.12.2011: EUR 14.750 ths. and BGN equivalent – 28,848 ths.), with original maturity of nine years and repayment in bullet at the end of the loans period. These are special-purpose loans and are granted to banks for direct crediting of customers with the objective of SME development under funding from the Ministry of Finance with KfW funds. Loans are charged with interest equal to BIR plus 3.25% margin, payable every 3 or 6 months. Loans are secured up to 50% of their nominal amount through a pledge of government securities. The carrying amount of those loans as at 31.12.2012 is BGN 27.460 ths. (2011: BGN 29.285 ths.)

As at 31.12.2012 the receivables from foreign banks under agreement signed for serving export deals are fully repaid, (2011; BGN 3,366 ths. EUR equivalent 1,721 ths.).

As at 31.12.2012 there are loans granted to banks in BGN with nominal value of 447,000 ths. (31.12.201; BGN 415,500 ths.) under two programs. The loans are with a special purpose under the first program (BGN 375,000 thousand of nominal value), and are granted to banks with the objective of direct lending of clients for the purpose of SME development, with original maturity from 5 to 10 years and repayment in bullet at the end of loan period or according to repayment schedule with 5 years grace period. Under the second program (80,000 thousand – nominal value) the loans are with special purpose and are granted to banks with the objective of direct lending to agricultural producers with original maturity of 5 years and repayment in bullet to maturity or according to repayment schedule with 3 or 4 years grace period. Loans are charged with fixed interest rate equal to 5.00%, payable every 6 months. Loans are secured up to 100% of their nominal amount through a pledge of government securities or through a pledge on receivables.

In early 2012, Bulgarian Development Bank (The parent company) has negotiated with commercial banks credit lines amounting BGN 100 millions, which will provide lending to bulgarian small and medium enterprises (SMEs). It is provided that the funds under the credit lines will be utilized by the partner-banks in two tranches, each amounting BGN 50 millions. Partner-banks will be lending the funds to small and medium enterprises (SMEs) at preferential terms – annual interest rate up to 7%, up to BGN 2 million and up to 5 years repayment. As at 31.12.2012 the utilized credit lines under this program amount to BGN 53,500 thousand. Loans are charged with fixed interest rate equal to 4.00%, payable every 6 months.

As at 31.12.2012 the Group has term deposits receivables denominated in BGN, USD or EUR from sixteen local banks and four foreign banks, representing 50.62 % of the carrying value of the deposits due from banks (31.12.2011; sixteen local banks and four foreign banks – with 51.79 %). The term deposits are with original maturity up to one year (31.12.2011; up to one year).

As at 31.12.2012 the Group has three repo deals receivable denominated in BGN and USD with amortized amount of BGN 28,364 ths., with maturity up to 08.05.2013 and contracted interest rate—from 0.1% to 0.6% (31.12.2011; BGN 17,606 ths.)

20. AVAILABLE-FOR-SALE SECURITIES

In thousand of BGN	2012	2011
Corporate bonds	63,346	13,536
Government bonds	60,048	100,1
Non-public companies' shares	1,903	1,903
Public companies' shares	104	120
	125,401	16,560
Movement in available-for-sale securities		
In thousand of BGN	2012	2011
As at January 01	16,560	17,922
Additions (purchases)	134,820	4.784
Disposals (sale and/or redemption)	(25,856)	(6,047)
Net decrease from revaluation of available-for-sale securities to fair		
value	(123)	(99)
As at December 31	125,401	16,560

The non-public companies' shares held by the Group represent shares of the capital of the European Investment Fund (EIF). The portion of the nominal value of the acquired shares of EIF, which has not been paid, is due after a decision to be taken on the General meeting of the EIF shareholders (Note № 36).

The rest of the non-public companies' shares represent shares in the company licensed as payment system operator under the Bulgarian law – BORICA - Bankservice AD. Only banks can be shareholders in this company and they acquire its shares following a specific procedure whereas the value per share is determined using a formula stated in the company's statute. The shares are presented at cost (acquisition price) due to their specific closed way of trading (except where sufficiently reliable information is available on a particular company so that the actual fair value could be determined).

The shares in public companies in BGN have been acquired mainly for the purpose of investments in companies in which the Bank is interested. They are presented at average stock exchange prices at the end of the financial year.

The reserve formed of the available-for-sale financial assets as at 31.12.2012 is at the amount of BGN 526 ths. – negative value (31.12.2011; BGN 403 ths. negative value) (Note № 35).

In 2012 impairment allowance of available-for-sale securities is transferred and reported on the statement of comprehensive income (as part of the current profit or loss for the year) amounting to BGN 6 ths. (Note N_{\odot} 9) (2011: BGN 153 ths.)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER# 2012

21. FINANCIAL ASSETS HELD-FOR-TRADING

In thousand of BGN	2012	2011
Interest rate swaps	2.771	2,995
Currency swaps	420	
	3,191	2,995

As at 31.12.2012, the financial assets held for trading include derivative financial instruments – interest rate swaps and currency swaps. They represent marketable instruments with positive fair value as at 31.12.2012. These instruments are traded for its own account, including the netting of transactions in foreign currency, interest rate and credit risk, and to cover transactions with customers of the parent company (the Bank).

Borrowed financing from the Ministry of Finance with funds from KfW

On 18 April 2007 the Bank concluded a loan agreement with the government of the Republic of Bulgaria, represented by the Minister of Finance. This agreement is based on the Treaty between Bulgaria and Germany for financial collaboration from year 2001 and an agreement between the Republic of Bulgaria and KtW. By virtue of this agreement, the amount of EUR 4,929 thousand is granted to the Bank designated as Project Provider for the purpose of financing micro, small and medium-sized enterprises. The term of the agreement is 10 years as from the date of fund receipt while the latter along with the due interest is repaid bullet at the end of the period. The loan interest is capitalized quarterly and is based on 3-month EURIBOR plus margin.

As at 31.12.2012 the amount of the loan is EUR 5,659 ths. equivalent to BGN 11.069 ths. (31.12.2011; EUR 5,600 ths. equivalent to BGN 10.954 ths.).

KfW funds provided by the Ministry of Finance for trust management

The Bank concluded an agreement with the Ministry of Finance (MF) for management of funds granted by Kreditanstalt fur Wiederaufbau (KfW) pursuant to an agreement between the Governments of Bulgaria and Germany. These funds are provided for the purpose of financing small and medium-sized enterprises. The Ministry of Finance retains the risk for the advanced provided to the partner – banks.

The main responsibilities of the Parent company (the Bank) in respect of the funds management include the following: selection of the banks – intermediaries, and transferring the funds to those approved; gathering of information and performance of periodic reviews regarding the funds utilization. Also monitoring of the timely payments of the interest and principal due and their repayment to the special account of the Ministry of Finance.

As at 31.12.2012 the balance of the loan with the Bank amounts to EUR 3,676 ths. equivalent to BGN 7,190 ths. (31.12.2011; EUR 3,773 ths. equivalent to BGN 7,379 ths.).

The Bank receives a management fee of 1% per annum. The calculation of the management fee is based on the total of funds advanced to the partner-banks plus the balance on the current account of the Fund with the Bank. The balance bears quarterly interest of 2% per annum.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER# 2012

30. OTHER BORROWINGS (CONTINUED)

Attracted special purpose deposit from the Ministry of Finance

On 20 December 2011 the Bank concluded a deposit agreement with the Ministry of Finance for the provision of deposit in the amount of BGN 171,000 thousand up to 30.03.2012, but not before the date of full repayment of the loan granted by the Bank under the state loan from 20.12.2011 year. (Note 19). As at 31.12.2012 the deposit has matured and the BDB AD liability has been settled.

Long-term refinancing agreement with the State Fund Agriculture

Under a Contract, signed in 2002, with the State Fund Agriculture for re-financing special-purpose loans provided to farmers, the Fund has refinanced the Bank with its own funds for granting such loans in relation to investment projects and disclosed investment programs. The interest due by the Bank on the Borrowings is 2% p.a. Since 18.05.2011 the Bank provided loans to farmers at 7% annual pursuant in accordance with Annex 1 (before 18.05.2011 loans granted by the Bank to the farmers are at 9% annual interest rate).

As at 31.12.2012 the amounts received for refinancing from the Fund is BGN 3.129 ths. (31.12.2011; BGN 5.712 ths.).

On 21.07.2011 the Bank signed a new Refinancing agreement with funds of the State Agricultural Fund for providing loans to applicants with approved projects under measures of the Rural Development Programme (RDP) for the period 2007 – 2013. The interest due by the Bank to State Agricultural Fund is 2% p.a. The Bank provides loans to approved projects under measures of RDP at 7% p.a.

As at 31.12,2012 there are no amounts received for refinancing from the Fund for refinancing projects under the Rural Development Program (RDP), (31.12.2011; BGN 117 ths.).

Special-purpose deposit by the National Agency for Fisheries and Aquaculture

On 07.12.2010 a financing agreement for provision of funds for the issuance of guarantees under Opreational programme fisheris sector development 2007-2013 has been signed between the National Gurantee Fund (NGF) and the National Agency for Fisheries and Aquacultures (NAFA) of the Ministry of Agriculture and Food of Republic of Bulgaria. The aim of the program is to provide easier access to financing by the sector, with lower interest rates, lower collateral requirements and lower own financing.

The guarantee program is fulfilled within the Measure 2.7 of the Operational Programme Rural Development (RDP). Following consultations, the National Agency for Fisheries and Aquacultures (NAFA) and the National Gurantee Fund (NGF) have chosen the financial engineering instrument to be realized throughout a fund accounted and managed by NGF, provided for under Commission Regulation (EC) No.498/2007 (OB, 10.05.2007, L 120) laying down detailed rules for the application of Council Regulation (EC) No.1198/2006. In accordance with article 35 of Commission Regulation (EC) No.498/2007, the financial engineering instrument

is established in the form of a separate block of finance within the functions of NGF EAD.

In 2010 NAFA provides to NGF the amount of BGN 6,000 ths, under Article No.1 from the Financing Agreement. On 28.12.2011 under Annex 2 an additional contribution of BGN 9.168 ths, have been made. On 19.12.2012 Annex 4 of the Financing Agreement for provision of funds for the issuance of guarantees under Opreational program fisher is sector development 2007-2013 has been signed between NGF and NAFA. Under Annex 4, NAFA shall transfer to NGF additional contribution amounting BGN 15.050 ths, for the realization of the guarantee scheme. In 2012, in order to benefit e better profitability, part of the funds under the program are invested in term deposits in two local banks.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER# 2012

30. OTHER BORROWINGS (CONTINUED)

Special-purpose deposit by the National Agency for Fisheries and Aquaculture (continued)

The guarantee program is free for businesses that benefit from it, while the cost for NGF for its realization are determined and paid under Article No.35 of Commission Regulation (EC) No.498/2007.

As at 31.12.2012, within the Rural Development Programme Guarantee scheme, NGF has signed agreements with 5 local banks.

The deadline for inclusion of new loans and bank guarantees is 31.12.2015.

Long-term agreement with the Ministry of Agriculture and Food

On 20 December 2011, the National Guarantee Fund EAD and the Ministry of Agriculture and Food (MAF) signed a financial agreement to provide funds for the implementation of guarantees on guarantee schemes under the Rural Development Programme 2007 - 2013. The Guarantee Scheme was established under Articles 50 - 52 of Commission Regulation (EC) No. 1974/2006 dated 15.12.2006 laying down detailed rules for the implementation of Council Regulation (EC) No. 1698/2005 dated 20.09.2005 regarding the support for rural development under European Agricultural Fund for Rural Development (EAFRD) to facilitate access to financing of beneficierires and the realization of the projects under the Rural Development Programme.

The MAF provides funding to NGF in BGN amount equivalent to EUR 121,100 ths., in order to enhance the access to financing, support competitiveness, accelerate the completion of investments, which will be co-finance with funds under the Rural Development Programme (2007-2013) and which will be used by the Fund for the issue of guarantees and counter-guarantees.

As at 31.12.2012 within the Rural Development Programme Guarantee scheme, NGF has signed agreements with 8 local banks.

31. DEBT SECURITIES ISSUED

In May 2010 the parent company (the Bank) has issued second ordinary, corporate, interest bearing, non-cash, registers, freely transferable, non-convertible, unsecured bonds ISIN code BG 2100005201 with a total nominal value EUR 20,000 thousands and par value of bond - EUR 1,000 each. The term of bond loan is 60 months, to 15 May 2015. The agreed interest is paid quarterly by applying interest rate of 5% p.a. The principal is payable on a single installment on maturity.

In December 2010 the parent company (the Bank) issued third registered, non-eash, freely transferable, ordinary, non-convertible, unsecured, interest bearing bonds with a total nominal value EUR 20,000 thousands and par value of bond – EUR 1,000 each. The term of bond loan is 60 months, to 30 December 2015. The contracted interest is paid quarterly by applying interest rate of 4.8% p.a. The principal is payable on a single installment on maturity.

Debt securities issued are presented in the statement of financial position at amortized cost.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER# 2012

33. OTHER LIABILITIES (CONTINUED)

The change in Group's liability to personnel for indemnities on retirement for the reporting year is presented in the statement of comprehensive income and includes:

Description	Amounts on retirement for old	Amounts on retirements due to	Total
In thousand of BGN	age and service	illness	
Interest expense	7	1	8
Current service costs	21	ı	22
Net actuarial (gain)			
loss recognised for the period	1	4	5
Expense recognised in the statement of comprehensive income (as current profit or loss for the period)	29	6	35

The following actuarial assumptions are used in calculating the present value of the liabilities as at 31 December 2012:

- mortality rate in accordance with the table, on basis of statistics issued by the National Statistical Institute for the total mortality rate of the population in Bulgaria for the period 2009 2011:
- staff turnover rate from 0% to 10% depending of the five age groups formed:
- effective annual interest rate for discounting = 4.5% (2011: -5.7%):

The assumptions for the future level of working salaries in the Bank is based on the plan for development of the company and verified by the Bank with confirmation letter: for 2013 - 5% compared to level in 2012 and for 2014 and subsequent years -5% compared to the previous year level.

34. SHARE CAPITAL

2012	2011
587,964	587,964
12,200	12,200
1,610	1.610
601,774	601.774
	587,964 12,200 1,610

The capital of the parent company (the Bank) is composed by 6,017,735 ordinary registered voting shares with par value of BGN 100 each.

The new Bulgarian Development Bank Act provides that not less than 51% of the shares - should be owned by the State whereas shares of the State amounting to not less than 51% of the registered share capital, are non-transferable. Also, a specific limit is established with regard to the remaining shareholders, other than the Bulgarian State, through the Ministry of Finance. They may be: the Council of Europe Development Bank, the European Investment Fund as well as other banks for development in EU member states.

The Bank's shares may not be pledged and the rights thereon may not be subject to transfer deals.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER # 2012

35. RESERVES

In accordance with the general provisions of the Commercial Act and the Bulgarian Development Bank Law from 2008, the parent company (the Bank) shall allocate to General Reserves at least 1/10 of its profit for the year until the reserves reach 10% of the share capital.

The parent company (the Bank) can use the money from the Reserve Fund to cover its current or prior period losses, but cannot use it for distribution of dividends without permission by Bulgarian National Bank.

In addition, under the Credit Institutions Act, the banks may not distribute dividends before reaching the minimum reserves (mainly General Reserves) required by law or by the Articles of Association, or in case the distribution of dividends results in violating the regulatory capital adequacy ratios. The requirement under the Bulgarian Development Bank Act is analogous.

As at 31.12.2012 the Statutory reserve of the Group amount to BGN 53.851 ths. B including BGN 52.447 ths. of the Bank (the parent company) and BGN 1.404 ths of its subsidiaries. (31.12.2011: BGN 52.800 ths. including BGN 51.824 ths. of the Bank and BGN 976 ths. of its subsidiaries).

As at 31.12.2012 the additional reserves of the Group amount to BGN 8.079 ths. (31.12.2011; BGN 6.190 ths.) and are formed as result of distribution of profits of the Group from previous periods, according to decisions of the General Meeting of shareholders.

In 2012 after a General Shereholders' Meeting took place in July 2012 and in accordance with article 26 from Decree 367/29.12.2011 of the Council of Ministers of the Republic of Bulgaria, a decision for distribution of dividends has been taken, amounting 80% of the profit for the year after deduction of the distribution to reserves. The dividend paid was BGN 4,476 ths. (in 2011 there are no dividends paid).

In accordance with the Bulgarian Development Bank Act, each shareholder of the Bank may refuse the dividend due thereto and then the dividend amount is transferred to supplementary reserves.

All unrealized gains and losses from fair value revaluation of the available-for-sale securities are recognized in equity in the Available-for-sale Revaluation Reserve. When securities classified as available-for-sale are sold, therefore derecognized or are impaired, the fair value adjustments accumulated in equity are recognized in the statement of comprehensive income (in profit ot loss). The revaluation reserve is presented net of deferred taxes. As at 31.12.2012 the AFS revaluation reserve equals to BGN 526 ths. negative value. (31.12.2011: BGN 403 ths. – negative value).

By virtue of the Bulgarian Development Bank Act, the transfers of the activities under the Micro-credits Guarantee Fund Project from the Ministry of Labor and Social Policy (MLSP) to the National Guarantee Fund EAD – subsidiary of the Parent Company (the bank) were implemented in the last quarter of 2008. Based on this Law and on Council of Ministers Decision No. 309/3 May 2007, re-negotiations were carried out within one year (until May 2009) with each of the partnering banks under the Micro-credits Guarantee Fund Project of MLSP for replacing the security of MLSP deposits with bank guarantees from the Bulgarian Development Bank AD. The capital of the Bulgarian Development Bank AD and respectively, of the National Guarantee Fund, were increased with the amount of the released government funds under the project.

As at 31.12.2012 agreements with eight partner-banks were concluded and the issued bank guarantees amount to BGN 16,697 ths. (31.12.2011; eight partner-banks and the issued bank guarantees amount to BGN 26.590 ths.).

In 2011 the National Guarantee Fund (a subsidiary) has operating agreements for portfolio guarantees with 11 banks. The total limit of funds provided to the banks for inclusion of loans in the portfolio amounted to BGN 146,500 ths. As at 31.12.2012 the approved amount of the loans included in the portfolio of the partner-banks amounted BGN 112,674 ths. (2011: BGN 122,162 ths.), and the amount of the guaranteed debt is BGN 87.995 ths.(2011: BGN 104,919 ths.).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 4 2012

36. CONTINGENT LIABILITIES AND COMMITMENTS (CONTINUED)

As at 31.12.2012, NGF EAD has issued risk-free gurantees/counter guarantees toward the partnering banks for financing of approved projects under the EU Opreational Programme Sector "Fisheries" Development 2007-2013 in the amount of BGN 4,180 ths., covering loans/bank guarantees extended by the partnering banks in the total amount of BGN 8,361 ths. NGF applied the maximum rate of guarantee cover 50%.

As at 31.12.2012 the guaranteed debt at book value amounts to BGN 2.576 ths.

Nature of instruments and credit risk

These commitments of contingent nature bear an off-balance sheet credit risk because only fees are recognised in the financial statements until the commitments are fulfilled or expire. The amounts reflected in the above table for guarantees represent the maximum accounting loss that would be recognised at the reporting date if counterparties failed to perform in full their obligations as contracted. Many of the contingent liabilities and commitments will expire without being advanced fully or partially. Therefore, the amounts do not represent expected future cash flows. The collateral coverage ratio for common bank guarantees is over 100% and represents deposits blocked at the Bank, mortgages of real estate and insurance policies issued in favor of the Bank. When conditions for enforcement of an issued guarantee occur, the Bank judges the possibilities for recourse to the counterparty and eventual realization of the provided securities.

The guarantees of the Bank issued under the Micro-credits Guarantee Fund Project are not secured. In case of activation of a guarantee of the Bank component, the payment is not assessed as ultimate loss because the partner-bank is obliged to undertake all necessary measures for realizing the received collaterals of the non-performing loan and to reimburse the respective amount to the Bank.

The non-paid portion of the nominal value of European Investment Fund shares, held by the Bank shall become due for payment after a special decision for this purpose taken by fund's General Meeting of Shareholders. By the issue date of this financial statement no such a decision has been taken.

No adjusting and/or non-adjusting events have occurred after the reporting period that require additional disclosures in the financial statements.

BULGARIAN DEVELOPMENT BANK AD

ACTIVITY REPORT 2012 CONSOLIDATED

Information on the Bank Group

Bulgarian Development Bank AD (BDB AD) was established on 11.03.1999 as a joint stock company under the Bulgarian Law with the name of Encouragement Bank AD.

On 23.04.2008 the Law on the Bulgarian Development Bank was adopted. It regulates the bank's structure and scope of activities, including those of the subsidiaries provided for establishment.

The mission of Bulgarian Development Bank is to be a contemporary banking institution, which utilizes its unique position on the Bulgarian banking market for implementation of the state's economic policy. Main focus for the Bank are local SME's, project finance for export orientated companies, as well as investment banking for public projects with national importance.

As at 31.12.2012 the paid-in share capital amounts to BGN 601,774 thousand (31.12.2011: BGN 601,774 thousand), consisting of 6,017,735 ordinary registered shares with nominal value of BGN 100 each. The Bank has complied with the requirements of BNB for minimum share capital for banking activity, as well as the capital requirements of the Law on BDB. The ownership of the capital is as follows: 99,9999% is owned by the Republic of Bulgaria represented by the Ministry of Finance; 0,0001% is owned by DSK Bank.

On 24.01.2012 in the Commercial Register at the Registry Agency were entered additions and amendments in the Statute of BDB, including actualization of the scope of activity of the Bank. According to the Statute of the Bank, it shall perform the activities stipulated in Art. 2 paragraph 1 and 2 of the Law on Credit Institutions, in compliance with the license issued by the Bulgarian National Bank. The Bank may conduct the following activities:

- 1. public attraction of deposits or other repayable funds and extending loans or other financing for its own account and at its own risk;
- 2. payment services within the meaning of the Law on Payment Services and Payment Systems, except of issuance of bank payment cards and electronic money, as well as execution of payment transactions with bank payment cards and electronic money instruments:
- 3. issuance and administration of other means of payment such as traveler's checks and letters of credit, as much as such activity is not covered by p. 2;
- 4. acting as depository or custodian institution;
- 5. financial leasing;
- 6. quarantee transactions;
- 7. trading for its own account or for customers' accounts with:
 - Money market instruments checks, bills of exchange, deposit certificates and others not covered under p. 8;
 - Foreign currency and precious metals;
 - Financial futures, options, exchange rate and interest rate instruments and other derivative instruments not covered under p. 8;
- 8. trading for its own account or for customers' accounts with transferable securities, participation in issuance of securities, as well as other services and activities under article 5, paragraph 2 and 3 of the Law on Markets of Financial Instruments;
- money brokerage:
- 10. advising companies on their capital structure, strategy and related matters as well as advices and services concerning company transformations and mergers and acquisitions transactions;
- 11. acquisition of receivables and other form of financing, resulting from sale of goods or services /factoring/;
- 12. equity acquisition and management;
- 13. collection and distribution of information and references on customers' creditworthiness;
- 14. other similar activities defined with a Regulation of the Bulgarian National Bank

The Bank may not perform as a core activity other activities, except the above and the activities provided by the Law on the Bulgarian Development Bank, except when this may prove necessary for the performance of its activity or in the process of collection of receivables and extended credits. The Bank may establish or acquire legal entities for performance of ancillary services. The Bank may participate in companies, consortiums and other forms of association in conformity with the relevant requirements of the effective legislation.

For the completion of its objectives, BDB AD forms a financial group together with two its solely owned subsidiaries — National Guarantee Fund EAD and Micro Financing Institutions JOBS EAD.

National Guarantee Fund EAD (NGF) is a company established on August 8, 2008 on the grounds of the Law on the Bulgarian Development Bank and registered in the Trade Register on 22.08.2008. According to the Law on credit institutions, National Guarantee Fund EAD is a financial institution, registered in 2009 by BNB in the register under Art.3, para.2 of the Law on credit institutions. In accordance with its Statute, the activity of the Fund includes:

- ✓ issuance of guarantees to supplement collaterals for loans to small and medium enterprises;
- offering other products for small and medium enterprises such as: guarantee for participation in tender; guarantee for good performance; guarantee for advance payment; guarantee for payment of loan to exporter, etc.;
- ✓ issuing guarantees to supplement collaterals for loans to small and medium enterprises involved in research and development activities, as well as for deployment of the results thereof in industry;
- ✓ other activities, that are not particularly prohibited by the Law.

Micro Finance Institution JOBS EAD (MFI) is registered in the Trade Register on January 14, 2011. The main activity is micro financing /maximum EUR 25 thousand cash equivalent of one product/, inclusive, but not limited to – granting micro-loans, acquisition by third parties and leasing of industrial equipment, cars and other vehicles, as well as other goods (financial leasing), purchase, sale and import of such goods, consultancy services, agency and brokerage of local and foreign individuals and companies, operating in the country, as well as other activities, not prohibited by Law.

The seat of Bulgarian Development Bank AD is: 10 Stefan Karadhza Str., Sredets District, Sofia 1000. The seat of National Guarantee Fund EAD and Micro Finance Institution JOBS EAD is: 1 Angel Kanchev Str., Sredets District, Sofia 1000.

As of December 31, 2012 the headcount of the Group is 149.

Characteristics of the environment - Macroeconomic environment and banking system

The development of the Bulgarian economy in 2012 was influenced by the problems in the countries from the EU, which are Bulgaria's main trading partners. In 2012 Bulgaria registered growth of 0,8% in the physical volume of GDP. While in 2011 the growth was mainly driven by the increase in net exports, in 2012 the main growth driver of the Bulgarian economy was domestic demand. In 2012 final consumption increased by 18%, whereas gross fixed capital formation increased by 0,8% YoY (in real terms).

The recovery in domestic demand contributed to the growth of the Bulgarian economy, and hence to an increase of the current account deficit in the Balance of payments. According to preliminary data for 2012 from the Bulgarian National Bank, the current account was negative, amounting to EUR 528.2 mln (-1.3% from GDP). According to the preliminary data for the Balance of payments, the foreign direct investments in the country amounted to EUR 1,478.3 mln.

Despite the growth of the economy in 2012, the dynamics in the labor market continued to be influenced by the ongoing restructuring processes in the economy. The level of employment continued to decrease and the unemployment rate in 2012 increased to 12,3% (according to data from NSI). Average annual inflation (Harmonized Index of Consumer Prices) for 2012 remained low at 2,4%.

In 2012 assets of the banking system grew by 7.3% and as of 31.12.2012 amounted to BGN 82.4 billion. Attracted funds followed a similar dynamic and reached BGN 70.7 billion. Loans (excluding loans to financial institutions) amounted to BGN 57.8 billion or increase of 3.2% YoY. Loans to enterprises increased by 5.7%, while loans to individuals and households decreased by 0.5%.

The banking system retained its capacity to resist unfavorable changes in the environment. As of the end of the year, non-performing loans of over 90 days reached 16.7% of the aggregate loan portfolio (2011: 14.9%). In the last quarter of 2012 there were signs that the dynamic in the indicator has reached its maximum and a reverse in the trend can be expected. The amount and quality of the capital position of the banking system remained at level that ensures the stability of the banking business. Total capital adequacy ratio of the banking sector at the end of 2012 stood at 16.66% (2011: 17.53%).

Review of activities

During 2012 the process of modernization and upgrade of the BDB Group continued. In the meantime, the companies of the Group continued to rapidly grow their businesses.

Following the structural reorganization in 2011 the process of comprehensive review of the internal regulations was finalized in 2012. The upgraded procedures regarding the organization of the bank's core business – lending activity were consistently applied. A new partnership program was developed aiming to improve the access of SMEs to the loan products of the bank. Within this program agreements were concluded with more than 20 branch and regional unions of the business.

NGF performed a procedure according to Public Procurement Law to choose partner banks for guarantee activities within the initiative included in Rural Areas Development Program. Guarantee Program for beneficiaries according to the operational program for development of Sector Fisheries started its activities. A system for in-depth analysis of the undertaken guarantee risks was developed and thus adequate risk coverage was achieved, related to the guarantees taken on the first stage of the functioning of the company.

In 2012 BDB increased the equity of MFI from BGN 4,562 thousand to BGN 7,643 thousand. The volume of the receivables from customers in MFI increased three times from BGN 1,199 thousand to BGN 4,773 thousand. Along with the leasing products the company started to grant microcredits.

The management of the Group adheres to a consistent conservative risk assessment policy, in line with the economic environment and the specific characteristics of the loan portfolio. In 2012 impairment coverage of exposures to non-financial institutions was raised from 12.8% to 15.7%, thus the risk to loans granted before 2011 was adequately covered.

As at 31.12.2012 the financial result of Bulgarian Development Bank Group after taxes is a profit amounted to BGN 8,495 thousand (2011: BGN 6,676 thousand). The financial result in 2012 was significantly influenced by the higher impairment loan portfolio formed before 2011 as the net costs for impairment of loans are at a total amount of BGN 39,179 thousand (2011: 31,948 thousand). Provisions for guarantee commitments were allocated for the amount of BGN 3,844 thousands. The increase in the impairment and provisions is due to the conservative approach in credit risk assessment and the necessity of additional impairment of particular credit exposures. The coverage of loans classified in category "Standard" was increased.

The realized operating income of the bank in 2012 reached BGN 64,873 thousand (2011: BGN 74,222 thousand). The decline in the operating income is due to one-off effects during 2011. As MFI started to operate, BGN 5,237 thousand were granted to MFI. Net interest income in 2012 is also lower – BGN 62,638 thousand (2011: BGN 65,645 thousand). The decrease is due to the lack of one-off positive effect from 2011 for the amount of BGN 5,000 thousand (the initiative according to Decree 197 of the Council of Ministers (CM) dated 08.04.2010 on "Adoption of a mechanism for settlement of State budget liabilities").

The general and administrative expenses in 2012 amount to BGN 12,017 thousand (2011: BGN 9,636 thousand). Significant contribution for the increase has the installment for Deposit Insurance Fund. In 2012 the necessary expenses and investments for upgrade of the information and communication systems in the bank were done, while as at the same time BDB Group maintained the lowest cost to income ratio for the Bulgarian banking system in 2012 - 18.5%.

As at 31.12.2012 the consolidated assets of Bulgarian Development Bank Group reached BGN 1,694 mln, which is 10% decrease (BGN 192 mln) in comparison with the end of 2011. The amount of the assets and liabilities of the Group in 2012 was significantly influenced by the following financial operation: in December 2011 BDB signed a contract for granting a loan to the Ministry of Agriculture and Food (MAF) for the amount of BGN 335,022 thousand as part of the initiative Rural Areas Development Program of the European Union. As at the end of 2011 these funds were deposited in BDB Group and within the same initiative The Ministry of Finance deposited BGN 171,000 thousand in BDB. As a result the volume of the assets of the Group increased with BGN 506 mln. In May 2012 the structuring of the initiative was finalized, and as a result the volume of the funds related to it in BDB was BGN 237 mln. (effect: decrease of the assets with the amount of BGN 269 mln.). Eliminating this one-off effect, the assets of the Group would have increased with BGN 77 mln.

In 2012, the Group continued to actively develop its activities supporting the Bulgarian business in a difficult economic environment. The loan portfolio increased to BGN 558,669 thousands, as BDB Group continued to maintain a diversified sectoral structure of its loan portfolio. Significantly decreased are the relative shares of transport services (minus 4.6 pp) and construction (minus 2.8 pp). There was an increase in the shares of trade (+ 3.5 pp) and real estate operations (+ 2.2 pp).

The volume of indirect lending through commercial banks (on-lending) as of 31.12.2012 amounted to BGN 491,432 thousands (BGN 445,685 thousands at the end of 2011).

The securities portfolio of BDB Group increased up to BGN 130,436 thousand (2011: BGN 21,677 thousand) and is equally split between government and corporate bonds. Investments in securities were not among the priority temporary activities of the Group. The increase in the portfolio at the end of 2012 was due to the temporary availability of significant volume of liquid funds.

As at 31.12.2012 the amount of utilized funds from international financial institutions is BGN 341,099 thousand (2011: BGN 327,963 thousand). The cooperation with key international partners continued. In 2012 funds for the amount of BGN 57,753 thousand were utilized. The loan granted to BDB in 2011 by one of the strategic key partners of the bank - Black Sea Trade and Development Bank was fully utilized. The resources under these loans are aimed at supporting the SME sector in Bulgaria by financing new projects to final borrowers – SMEs. Fully utilized were also the funds under the loan from Nordic Investment Bank, used to finance projects for renewable energy and environment.

Except its traditional sources of funding, in 2012 BDB Group initiated negotiations for additional financial facilities with six more new and existing partners for granting export financing and financing of projects of mutual interest.

Risk management

In the usual course of business, the companies in the Group are exposed to a variety of financial risks. These risks are identified, measured and monitored through various control mechanisms in order to be managed and to prevent undue risk concentration. The process of risk management is essential for the Group's profitability and existence. The main risks, to which the Group is exposed, are credit risk, market risk and operating risk.

Credit risk

Credit risk is the main risk to which the Group is exposed, hence its management is essential for the business. Credit risk management is carried out in accordance with the Law on BDB and the laws and regulations of the Republic of Bulgaria regulating lending activity, as well as in accordance with established international standards and good banking practices.

BDB uses a model to generate internal ratings for assessing and managing credit risk exposures. These ratings indicate the credit quality of the borrower for each loan transaction. Within BDB Group are created and function bodies for current monitoring and controlling of the quality of loan portfolio, namely a Work group on overdue loans, Work group for current control on the loan portfolio, Provisions committee (within all of the companies in the Group) and Work group on the legal cases. Ongoing monitoring of the loan portfolio is also conducted by establishing periodic reports (twice a year) on the activities of each borrower and after a detailed examination of the information in the report each case is sent for consideration by the Working Group for monitoring and Committee or provisions in the event that there is new information that would lead to a risk for the Group.

For the management of the credit risk in the BDB Group, a system of interbank limits for economic sectors is observed, as well as other credit and concentration limits, and the results of compliance monitoring are reported to competent authorities. The system of limits is revised and updated periodically.

Market risks

When managing the foreign currency risk, the BDB Group follows the principle of maintaining a minimal open currency positions within the specified limits. Foreign exchange positions are not formed for speculative purposes, but are due to foreign currency transactions arising in the ordinary course of a banking business. The Group does not carry out significant transactions and does not hold significant open positions in currencies other than Euro and Bulgarian Leva. Until the exchange rate of the Bulgarian Lev is fixed to the Euro, the Euro is not considered a currency bearing currency risk for the cash flows and the financial position of the Group.

As a part of the management of interest rate risk, regular reports on financial assets and liabilities are prepared, divided in time intervals depending on their sensitivity to changes in interest rates. In case of discrepancies in periods, an assessment of expected changes in interest curve is applied and potential risk for the interest income of the Group is measured.

Risks in operations on money and capital markets are managed by a system of limits reflecting the risk profile of investments and certain parameters of the portfolio, such as counterparty, financial instrument, maturity, etc. The system of limits is reviewed periodically, and implementation of the limits is subject to daily monitoring. The securities portfolio formed by BDB Group is below the specified regulatory threshold requiring an allocation of capital for price risk and price risk is negligible compared to the size of business. As there is no trading portfolio in accordance to the regulatory provisions there is no capital allocated for market risk.

Liquidity of BDB Group is managed by closely monitored ratios indicating liquidity position by periods. Liquidity risk is measured by applying additional scenarios for cash flows from

operations. Measured and monitored are also the liquidity buffers of the BDB Group and the additional sources of funding in case of market and idiosyncratic shocks.

Operational risk

Operational risk management is implemented through close observation and recording of all operational events. Events, characterized by greater frequency, are the basis of scenario analysis on operational risk. With the relatively small headcount in the Group, the operational risk is easily measurable and controllable. In the course of business a register of operational events is created, serving as a basis for analysis and improvement of work processes and minimizes factors that potentially could lead to operational events and loss for the Group.

Banking regulators under the Bulgarian legislation

In accordance with the requirements of laws and regulations governing the banking in the country, Bulgarian Development Bank should comply with restrictions related to certain ratios. As at 31.12.2012 the Bank has complied with all regulatory requirements of the BNB and the Bulgarian legislation on individual and consolidated basis.

The capital adequacy ratio on consolidated basis as of 31.12.2012 is 53.59% (31.12.2011 r. - 59.78%), which manifold exceeds the minimum required capital adequacy ratio of 12%. The decrease registered in 2012 is associated with more intensive utilization of the Group's capital in its business development.

Credit rating and international activities

On November 14, 2012 the rating agency Fitch Ratings affirmed the long term rating "BBB-" (BBB minus) of BDB AD as an issuer of long-term foreign currency debt, with stable outlook. The short-term rating of the Bank is affirmed at "F3". The investment community considers these ratings as an investment grade and it is among the highest in the Bulgarian banking system - evidence of the sound financial position BDB amid the ongoing processes in Europe.

BDB continues to successfully develop fruitful partnership with major European and International financial institutions. These relations enable the Bank to be preferred business partner, to benefit from the best banking practices and to participate in their development and implementation.

BDB is a shareholder in the European Investment Fund, holding 0.10% of its equity, and participates regularly in the Committee of the minority shareholders of the financial institution where the guidelines for development of the activity and policy of the EIF are discussed. BDB is an active member of the European Association of Public Banks (EAPB) since 2005. At the end of 2012 on a general assembly of the association in Brussels, a representative of BDB was elected as a member of the Administrative Board of the prestigious European banking organization.

In 2012 BDB continued to take an active participation in the workshops and seminars organized by EAPB, related to the development of the European banking and financial legislation. The membership in EAPB facilitates the exchange of experiences and best practices between BDB and the European public banks.

The Bank is also a member and the Network of European Financial Institutions (NEFI), participated by 15 European countries. The objectives of NEFI are to improve the exchange of information, know-how and experience in SME financing between banks, as well as to engage in constructive dialogue with the EU institutions regarding the financing problems of SMEs in the EU.

BDB retains its status as member and takes part in the activities of "Club of Institutions of the European Union Specializing in Long-Term Credit", jointly with the EIB, the EBRD, Caisse des depots et consignations (CDC), Cassa depositi i prestiti (CDP) and others.

Management of the Group

Bulgarian Development Bank (mother company) has a two-tier management structure consisting of Supervisory Board and Management Board. In 2012, there were no changes in the composition or the structure of management bodies. As at 31.12.2012 the Supervisory Board and the Management Board have the following structure:

Supervisory Board

Dorothea Ivanova Pandova - Chairperson of the Supervisory Board Rumen Andonov Porozhanov - Member of the Supervisory Board Diana Toneva Dragneva-Ivanova - Member of the Supervisory Board

Management Board

Assen Vassilev Yagodin - Chairman and Chief Executive Officer
Vladimir Vladimirov Gyulev - Deputy Chairman and Executive Director
Iliya Zapryanov Karanikolov - Member of the Management Board and Executive Director
Andrey Ivanov Genev – Member of the Management Board,
Hristo Vangelov Karamfilov - Member of the Management Board

The Bank is represented jointly by any two of the three Executive Directors.

No contracts within the meaning of Art. 240 "b" of the Commercial Law are concluded between members of the SB, MB or related persons on one side, and the Bank on the other side, falling beyond the ordinary course of business or significantly deviating from market conditions.

The participation within the meaning of Art.247, paragraph 2, item 4 of the Commercial Law of members of the SB and MB in commercial companies as general partners, holding more than 25 percent of the capital of another company, as well as participation in the management of other companies or associations as procurators, managers or Board members is as follows:

- The members of the SB and MB of BDB do not participate in the capital of other companies.
- Mrs. Dorothea Pandova is a member of the Board of Directors of the European Investment Bank. The other members of the SB do not participate in the management of other companies.
- Members of the MB have the following participation in the management of other companies:
 - Assen Vassilev Yagodin participates in the management of BULGARIAN STOCK EXCHANGE - SOFIA, ID - 030412611 as Chairman of the Board of Directors and in the Association of Banks in Bulgaria as Vice Chairman of the MB.
 - o Vladimir Vladimirov Gyulev does not participate in the management of other companies.
 - o Iliya Zapryanov Karanikolov participates in the management of Microfinance Institution JOBS EAD, UIC 201390740 as Chairman of the Board of Directors.

- Mr. Karanikolov is a member of the Administrative Board of the European Association of Public Banks.
- o Andrey Ivanov Genev participates the management of National Guarantee Fund EAD, UIC 200321435 as Chairman of the Board of Directors
- o Christo Vangelov Karamfilov is a member of the Board of Directors of Microfinance Institutions Jobs EAD, UIC 201390740.

BDB is a sole shareholder of the capital of its subsidiaries NGF EAD and MFI JOBS EAD.

NGF EAD has a one-tier management structure consisting of Board of Directors (BoD) as during 2012 it consists of tree members. At the beginning of the year the Board of Directors is composed by Andrey Ivanov Genev - Chairman of the Board, Dimitar Ivanov Mitev member of the Board and Svetlin Dimov Statkov - member of the Board and CEO. At September 27, 2012 after a decision of the sole shareholder (BDB) the Board of Directors was changed as follows: Svetlin Dimov Statkov was discharged as member of the Board and CEO of NDF as the Board becomes with the following members: Andrey Ivanov Genev -Chairman of the Board, Dimitar Ivanov Mitev - member of the Board and Boyan Nikolov Ikonomov - member of the Board and CEO. At December 17, 2012 after a decision of the sole shareholder (BDB) the Board of Directors was changed as follows: Boyan Nikolov Ikonomov was discharged as member of the Board and CEO of NDF as the Board becomes with the following members: Andrey Ivanov Genev, Dimitar Ivanov Mitev and Samuil Pavlov Shiderov - member of the Board and CEO of NGF. At December 19, 2012 after a decision of the Board of Directors Andrey Ivanov Genev was elected for Chairman of the Board, Dimitar Ivanov Mitey - Deputy Chairman of the Board and Samuil Paylov Shiderov - member of the Board and CEO of NGF.

NGF is represented jointly by any two of the members of the Board of Directors.

The members of the Board of Directors of NGF EAD do not hold shares of the Fund and have no special rights to acquire such shares.

No contracts within the meaning of Art. 240 "b" of the Commercial Law are concluded between the members of the BoD of NGF EAD or related persons on one side and the company on the other side, falling beyond their usual activities or significantly deviating from markets conditions.

The participation within the meaning of Art.247, paragraph 2, item 4 of the Commercial Law, of members of the BoD of NGF EAD in commercial companies as general partners, holding more than 25 percent of the capital of another company, as well as their participation in the management of other companies or associations as procurators, managers or Board members, is as follows:

- Members of the BoD do not participate in the capital of other companies as general partners and do not hold more than 25 percent of the capital of another company.
- Members of the BoD have the following participations in the management of other companies:
 - Andrey Ivanov Genev is a member of the Management Board of BDB, UIC 121856059.

MFI JOBS also have one-tier management structure - Board of Directors consisting of three members and as of the date of this report includes: Iliya Zapryanov Karanikolov (Chairman of BD), Hristo Vanguelov Karamfilov (Deputy Chairman of the BD), Martin Emilov Ganchev (member of BD and Executive Director).

During 2012 changes in the Board of Directors of MFI JOBS EAD was made. On 12.03.2012 a change is registered in the Commercial Register: Deyana Gueorguieva Kostadinova (Chairman of the Board) is substituted by Hristo Vanguelov Karamfilov as Deputy Chairman of the Board. Iliya Zapryanov Karanikolov was registered as Chairman of the Board.

The company is represented by the Executive Director or procurator authorized by the Board of Directors, jointly with one other member of the BoD or Executive Director jointly with the procurator authorized by the Board of Directors.

The procurator authorized by the Board of Directors is Kostadin Bojikov Munev.

No contracts within the meaning of Art. 240 "b" of the Commercial Law are concluded between the members of BD, the procurator of MFI JOBS EAD or related persons on one side and the company on the other side, falling beyond their usual activities or significantly deviating from markets conditions.

The participation within the meaning of Art.247, paragraph 2, item 4 of the Commercial Law of members of the BD and the procurator of MFI JOBS EAD in commercial companies as general partners, holding more than 25 percent of the capital of another company, as well as their participation in the management of other companies or associations as procurators, managers or Board members is as follows:

- Members of the BD and the procurator of the company do not participate in the capital of other companies as general partners and do not hold more than 25 percent of the capital of another company.
- Members of the BD and the procurator have the following participation in the management of other companies:
 - o Iliya Zapryanov Karanikolov is an Executive Director and member of the Management Board of BDB AD. Mr. Karanikolov is a member of the Administrative Board of the European Association of Public Banks.
 - o Hristo Vanguelov Karamfilov is a member of the Management Board of BDB AD.
 - Martin Emilov Ganchev and Kostadin Bojikov Munev do not participate in other companies or associations pursuant Art. 247, paragraph 2, item 4 of the Commercial Law

The remuneration paid to the persons, managing the companies of the BDB Group (the Bank and its subsidiaries) in 2012 amounted to BGN 1,762 thousand.

Transactions with related persons and companies under common control of the state

Owner of BDB is the Bulgarian state, hence the companies in the Group are a related party to the state authorities of the Republic of Bulgaria and the companies in which it exercises control. In note No 38 to the consolidated financial statements of BDB for 2012 are presented transactions with related parties and companies under common control of the state.

Development strategy and business objectives. Financial goals and objectives

In 2011 and 2012 the Group of BDB managed to cover expenses related to the financial impact of inherited risks from previous periods. This allows it to focus on the implementation of the Strategy for development of BDB in the period until 2014 and until 2016, approved on 14.11.2012 by the Council of Ministers of the Republic of Bulgaria. The strategy establishes a framework for the modernization of the Group's activity and accelerated growth in support of the Bulgarian business. It envisages returning the focus to the main priority of the Bank —

SMEs, export-oriented business and public projects. BDB's objective is to become one of the leading financial institutions in the Bulgarian banking market, reaching a scale that would allow it to be an important instrument of the state policy in support of the Bulgarian economy. This way the capacity of the Bank will be used efficiently and on the basis of its stable foundation (100% state-owned, large as per the local standards capital, highest possible rating for Bulgaria) the Bank will attract resources under favorable terms and will transfer this price advantage to Bulgarian SMEs.

Within the horizon of the strategy the Bank will aim towards achieving an adequate ratio "equity - loan portfolio" of about "1 to 4", compared to "1 to 1.2" at the end of 2010.

BDB will continue to be an important partner of Bulgarian banks in lending to SMEs – by using its competitive advantages to attract external resources at attractive price levels, the bank will expand the so-called "on-lending" portfolio, credit lines to other local banks to provide loans to SMEs under preferential conditions.

With its subsidiaries the Group of BDB will continue extending its portfolio of services in favor of SMEs. NGF will administrate special-purpose guarantee programs for specific economic sectors as well as own-risk guarantees. Micro-financing by MFI JOBS will be also enhanced.

BDB Group will assume an active position in respect of utilization of the EU funds – the Group will aim directly to actively support the process of absorption of the funds under OP and RDP. BDB Group will support both the beneficiaries (SMEs and agricultural producers) in implementing their investment projects, as well as, relying on its experience and where appropriate, the public administration.

BDB will assume a leading role in the implementation of projects of national importance. Given its unique status for the local market, but relatively limited resources, the bank will pursue the role of lead advisor / arranger and partial lender in the implementation of major transactions in the field of project financing.

The business development in 2013 will focus on the development of lending and profitability. The Group will continue to pursue its conservative approach to risk-taking and assets impairment, taking into account the general level of credit risk in the banking system and the specific characteristics of the loan portfolio formed by the end of 2010. Also envisaged is the development of the lending activity, both directly and indirectly. The pace of this development will be tailored to the risk characteristics of the environment, in order not to be undertaken additional risk. In order to finance its assets BDB will continue to rely mainly on its equity and attracted funding from international financial institutions.

In February 2013 the reconstruction of the office building of the companies in the BDB Groups started. The major investments under the project will take place during 2013 and 2014.

Subsequent events

In the period between the balance sheet closing date and the preparation of this report no events have occurred, which have a significant impact on the facts in the report.

Declaration of the management

The management of the Bank declares that the attached annual financial statements fairly reflect the assets and financial status of the BDB Group at the end of 2012 and the calculation of the financial result for the year in accordance with the applicable law. Appropriate accounting policies are used and applied consistently. The necessary judgments are made in accordance with the prudential principle in preparation of the annual financial accounting statement at the end of the year. The management consistently uses the

applicable accounting standards and the annual financial statements are prepared on a going concern basis.

The management of the Group endeavors to maintain an adequate accounting system that complies with the applicable accounting standards. The annual financial statements disclose the standing of the BDB Group with a reasonable degree of accuracy.

All measures are taken to protect the Group's assets, to prevent fraud and violations of laws in the country and regulations of BNB on the banking activity.
