- **Mr. Andrew Light**, Senior Advisor to the Secretary of Energy for International Affairs, USA
- **Mr. Graham Stuart**, Minister for Exports of the UK, UK

ROUND TABLE

Main topic:

- Connectivity for transition to sustainability

Key deliverables:

Carbon neutral energy systems of the future will require increased energy efficiency, renewable energy and nuclear power, as well as natural gas as a transition and main fuel for balancing purposes. Repurposing of the existing gas infrastructure will be needed for the widespread use of low-carbon hydrogen.

Moderator: Mr. Kostadin Sirleshtov, *CMS Managing Partner, CEE Head of Energy & Climate Change, Bulgaria*

Natural gas as a transition fuel – the infrastructure priorities for the region

Main focus: *Natural gas should be recognized as an important transition fuel for the carbon neutral future. Interconnectivity is an essential element of security of supply and diversification, and further investment in interconnecting infrastructure should be considered.*

Speakers:

- **Mr. Andrey Zhivkov**, Minister of Energy of the Republic of Bulgaria
- **Mr. Piotr Naimski**, Secretary of State for Strategic Energy Infrastructure, Republic of Poland
